

COMANCHE NATIONAL GRASSLAND
TIMPAS UNIT

- MANAGEMENT AREAS**
- Management areas are groupings of capability areas which will be managed with a particular emphasis through application of a specific combination of multiple-use practices. The management emphasis or the areas to which an emphasis applies may vary between alternatives.
- MANAGEMENT AREA 1D** - Management emphasis is for major oil and gas pipelines, major water transportation and slurry pipelines, electrical transmission lines, and transcontinental telephone lines. Activities within these corridors and sites will be compatible with the adjacent management area direction.
 - 4B** - Provides wildlife habitat needs and permits dispersed motorized and nonmotorized recreation and sustained forage yield.
 - 6B** - Emphasizes management for livestock grazing. Intensive grazing management systems are favored over extensive systems.
 - 9A** - Riparian area management. Resource use will be managed to protect and maintain the riparian area. Vegetation treatment will enhance plant and animal diversity. Primitive, semiprimitive nonmotorized, semiprimitive motorized, roaded natural and rural recreation opportunities can be provided.
- Only those 9A management areas which are practical to portray on this map are shown. This prescription actually applies to all riparian areas located anywhere on the Grasslands, except those in Research Natural Areas and Special Interest Areas.
- 10A** - Provides for the management of existing and potential Research Natural Areas.
 - 10B** - Provides for the management of the Southeast Colorado Research Center.
 - 10C** - Provides for the management of Special Interest Areas such as habitat for the lesser prairie chicken.
- The management requirements for individual management areas are described in Chapter III of the Forest Plan.
- Power Transmission Corridor
 - Substation
 - Proposed Pipeline Corridor
 - ■ ■ ■ Gas Pipeline Corridor
 - ▲ Electronics Site
 - ▲ Developed Recreation Site
 - ▲ Administrative Site
- SE** Special area designated for specific purposes, managed according to the terms of the designation document and the Forest-wide direction.
- CSU Southeastern Branch Experimental Station

CIMARRON NATIONAL GRASSLAND

THE MANAGEMENT AREAS IDENTIFIED ON THIS MAP AND THE MANAGEMENT DIRECTION DEFINED IN THE FOREST PLAN APPLY TO NATIONAL FOREST SYSTEMS LANDS ONLY. THEY DO NOT APPLY TO ANY LANDS IN STATE, PRIVATE, OR OTHER OWNERSHIP.
