

DON'T DESTROY the Things You Love

100 million elm
killed by Dutch elm
disease

Millions of
hardwoods killed by
gypsy moth

20 million ash killed
by emerald
ash borer

Millions of pines
threatened by
European wood wasp

Transporting firewood can
spread insects and diseases
that KILL TREES.

Please...buy firewood
where you camp.

If you have firewood from out of state, please
BURN IT IMMEDIATELY.
Our forests thank you!
