Dear Interested Party:

The Springerville Ranger Districts of the Apache-Sitgreaves National Forests have completed an Environmental Assessment (EA) for the Hall Ranch Wildland Urban Interface. The EA is available for review at the Springerville Ranger District, 165 South Mountain Avenue, Springerville, AZ 85938, and on the Apache-Sitgreaves National Forests website at <http://www.fs.fed.us/r3/asnf/projects/>. Hard copies of the EA are available upon request to Bruce A. Buttrey, Project Team Leader.

The Hall Ranch WUI project proposes to implement a combination of treatments, on approximately 2,246 acres, to live trees, snags (dead standing trees), existing and pre-existing slash and herbaceous vegetation. Treatments include thinning of trees and treatment of existing and created slash in forest and grasslands areas and prescribed burning on the Springerville Ranger District of the Apache-Sitgreaves National Forests. The project was planned under authorities outlined in the Healthy Forest Restoration Act of 2003. The Responsible Official who will issue a decision on this project is Forest Supervisor, Apache-Sitgreaves National Forests, Christopher Knopp.

The Proposed Action departs from management direction of the Apache-Sitgreaves National Forests Land Management Plan, as amended. Details of the departure are included in the EA. The decision document for the Proposed Action (if selected) would, therefore require a project-specific amendment to the FLMP to allow for the departures. The departures are necessary to meet the objectives of the Proposed Action adjacent to the at-risk communities of Hidden Meadows and Green's Peak Hideaways.

This proposed project and proposed forest plan amendment is subject to the objection process pursuant to 36 CFR Part 218 Subpart A and is not subject to notice, comment and appeal procedures under 215 (218.5).
