Saturday

OPEN with minor delays (*see traffic signal note below*)

*Motorists wishing passage must be at the pilot car area at the specified times. Once the traffic has been allowed to pass, the road through the construction area will be closed until the next scheduled opening.

NOTE: Traffic Signal The highway will be reduced to one lane for the construction of retaining walls, necessitating alternate one-way traffic and the use of a traffic signal to safely move vehicles through the area. The lane reduction will remain in place 24 hours a day, seven days a week.

- Access to emergency vehicles will be provided through the construction zone at all times
 - No stopping in work zone while construction activities are under way.
 - No bicyclists allowed between milepost 11.2 and 15.9
 - For Holiday traffic control schedule call the Construction Information Line
 - Construction Information Line 751-9405
