Seasonal Winter Closure

AAAA **A** - Cross-country travel over snow by any motorized vehicle, including over-snow vehicles is prohibited between January 1 and April 15th. All vehicle classes consistent with road or trail use allowances are permitted on routes designated as Open Yearlong. No motorized use is permitted in Research Natural Areas. Travel by over-snow vehicles over adequate snow is permissible outside seasonal and all winter over-snow closure areas. Fish Lake, Mill Meadow, and Forsyth Reservoir may be traversed by ATVs when the surface ice has sufficient depth, density, and continuity to safely support winter use.

All Winter Closure

CCCC **C** - Cross-country travel over snow by any motorized vehicles is prohibited at all times. All vehicle classes consistent with road or trail use allowances are permitted on routes designated as Open Yearlong. No motorized use is permitted in Research Natural Areas. Travel by over-snow vehicles over adequate snow is permissible outside seasonal and all winter over-snow closure areas.

Over-snow vehicle: A motor vehicle that is designed for use over snow and that runs on a track or tracks and /or a ski or skis, while in use over snow.

Adequate Snow - Sufficient depth, density, and continuity of snow to prevent direct disturbance of ground cover when using an over-snow vehicle to travel cross-country. This definition recognizes that adequate snow conditions can be provided by a variety of conditions depending on factors such as current snow conditions, time of year, local climate, aspect, elevation, and vegetation types.

Pursuant to 36CFR212.81 and 36CFR261.13 & 14

This map is only intended to show winter closure areas. Please obtain the current Fishlake National Forest Travel Map for road and trail opportunities and restrictions.
