Intermountain Region  
Planning, Appeals & Litigation  
324 25th St.  
Ogden, UT 84401

Please publish the following Legal Notice on Tuesday, November 9:

USDA-FOREST SERVICE  
INTERMOUNTAIN REGION  
Ashley, Dixie, Fishlake, Manti-La Sal, Uinta, and Wasatch-Cache National Forests

### NOTICE AND OPPORTUNITY TO COMMENT

The Regional Forester is proposing to modify or delete current programmatic direction and add new direction in response to new information concerning management of habitat for the northern goshawk and its prey. This action will amend the management direction established in the current land and resource management plans for the Ashley, Dixie, Fishlake, Manti-LaSal, Uinta, and Wasatch-Cache National Forests. The direction will be in the form of goals, objectives, standards, guidelines, and monitoring requirements.

This is a programmatic environmental assessment that examines six alternatives which address issues identified through the scoping and public involvement phases of the project. The Environmental Assessment is available electronically on the Project's website at [www.fs.fed.us/r4/goshawk](http://www.fs.fed.us/r4/goshawk).

The Regional Forester for the Intermountain Region will make the decision after review of comments on the environmental assessment.

To submit comments, please refer to the Utah Northern Goshawk Project Environmental Assessment and provide specific facts or comments along with supporting reasons you believe should be considered in reaching a decision. All substantive comments received will be addressed in an appendix to the environmental assessment and considered in the decision. Comments must be postmarked by January 10, 2000 and sent to Utah Northern Goshawk Project, c/o Uinta NF, PO Box 1428, Provo, UT 84601.

If you have questions regarding this project, please contact Randall Hayman, 435-865-3737.
