Date: May 30, 2008

Victor Anderson

Dear Victor,

The following letter will document the meeting between Ric Maesterjuan, Peter Gula and Boyd Hatch, on March 25, 2008 and will serve as your Annual Operating Instructions (AOI) for the 2008 summer grazing season. The District Ranger must approve any changes to this AOI.

The grazing system on this allotment is season long. The scheduled dates of use are flexible but a one-week notice must be given before any changes are made in the below dates. The District Ranger must approve any changes in the planned use.

**BUFFALO C&H
PERMITTED USE**

Permittee	Class	Number	Season
Wilson	c/c	150	6/16 - 8/31
Frey	c/c	80	6/16 - 8/31
Anderson	c/c	25	6/16 - 8/31

**BUFFALO C&H
AUTHORIZED USE**

UNITS	Class	Number	Season
Buffalo Canyon (Wilson)	c/c	150	6/16 - 8/31 or until utilization is met
Chimney (Frey)	c/c	80	6/16 - 8/31 or until utilization is met
Porcupine (Anderson)	c/c	25	6/16 - 8/31 or until utilization is met
Horse Canyon	c/c	REST	REST
Andorno Canyon	c/c	REST	REST
Falls Canyon	c/c	REST	REST

ALLOWABLE USE:

You are responsible for determining when allowable use has been reached and for moving your cattle to other areas lightly used or off the allotment when allowable use has been reached. The Forest Service is responsible for monitoring your compliance with allowable use standards. If

you need assistance determining use levels or locating key areas, please contact Peter or Boyd. All riparian areas on the allotments are considered key areas.

Riparian sites:

AREA	PERCENT ALLOWABLE USE
within 300 ft of category 5 seep or spring	55% use of grasses, rushes and sedges.
Porcupine Creek and within 300 ft of category 3 seep or spring	50% use of grasses, rushes and sedges.
within 300 ft of category 1 seep or spring, and all riparian browse	35% use of grasses, rushes/sedges, and all riparian shrubs such as willows.

Upland sites:

AREA	PERCENT ALLOWABLE USE
Uplands Herbaceous	65% use of key species Mountain brome, bluebunch wheatgrass, Idaho fescue, squirrltail.
Upland Browse	50% of current years growth snowberry, serviceberry, mahogany, bitterbrush

RANGE IMPROVEMENTS:

Range improvements listed in part three of your grazing permit must be maintained before cattle enter the allotments. The maintenance standards listed in part three of your term permit must be followed when maintaining the improvements.

GENERAL MANAGEMENT:

Dead livestock must be moved at least 100 yards from water, roads, and trails. Place salt at least ¼ mile from water sources and in areas lightly grazed to encourage an even distribution of utilization on the range. In situations where terrain does not allow proper placement of salt, please contact Peter or Boyd and they will determine a suitable location with your input.

If you spot a wild fire, report it immediately to the interagency dispatch center in Winnemucca, NV at (775) 623-1555 or 1-800-535-6076. Actual use and range improvement maintenance forms have been included for you to complete and return at the end of the grazing season. Please return the forms following the 2008 grazing season by October 30, 2008.

Invasive weeds are becoming a serious threat to the welfare of our rangelands. Your assistance is needed to identify new outbreaks of weed populations and to prevent the establishment of weeds on the forest. Pay particular attention to areas where stock are concentrated such as loading/unloading areas, water developments, and salting areas. We have implemented a

Noxious Weed Free Hay order on the forest. This will require any hay that is brought onto the National Forest to be certified free from noxious weeds. All livestock entering the National Forest are recommended to be fed Certified Noxious Weed Free Forage for at least 2 days prior to entering the Forest.

As a reminder, approval of requests for permittee convenience nonuse is not automatic and the authorized officer should discuss the reasons for the nonuse request with the permittee. Approval of a request for permittee convenience non-use must be in writing by the authorized officer. Full or partial permittee convenience nonuse may be approved by the authorized officer for no more than three consecutive years and not more than four years in any ten year period

Grazing fees remained unchanged from last year. The fee is now \$1.35 per head month.

Payment of your grazing bill is due five days prior to your earliest turnout date to allow time for processing. As a reminder the Forest Service is required to give permittees a minimum of 30 days to pay you grazing fees. The Forest Service is requesting that permittees schedule their AOI meeting a minimum of 35 days prior to their earliest on date to provide adequate time to plan for the upcoming grazing season.

If you have any questions or concerns this grazing season, please call Peter or Boyd at (775) 623-5025 x 5.

Sincerely,

JOSE NORIEGA
District Ranger

Encl.
