Robert Gardner, Ranger, Fishlake National Forest
Rex Rowley, Field Office Manager, Bureau of Land Management

Dear Sirs,

I have been involved in the Pahvant Fuels Project for the last while and can see a a lot of action and project's taking place on the Pahvant Front.

I understand the need for reduced fuel loading and the fire breaks that are being put in. I have been the Millard Co. Fire Warden for the past 23 years and have seen the catastrophic damage that wildfire does in our county. The secondary effects of flooding and dust bowl area 's from past wildland fires are very evident in the area.. I'm in favor of more mitigation project's that will help reduce that danger.

While attending the meeting of the Millard Co. Fire District Board ; I have spent time with the representatives of the Fire District. They also realize the need for the project and are very supportive of what has been done in our area. This is their communities that are prone to wildfire and they will support the Pahvant Fire Reduction Project.

Sincerely,

A handwritten signature in black ink that reads "Howard Allred".
