## **Road Work Begins on Yankee Fork Road**

The Salmon-Challis National Forest has contracted Roadtech, Inc. to perform road work on the lower portion of the Yankee Fork Road from mile post 3.1, Pole Flat Camp, to the Yankee Fork Dredge at mile post 8.5. Construction crews and heavy equipment should be expected on this section of road for the next four to six weeks. Work will include narrowing the roadway, installing drainage ditches, and crushing a road base using a mobile rock crusher. Expect to encounter single lane closures and some minor delays.

A second phase of the project will occur later this summer on the single lane portion of the Custer Motorway from the Custer town site at mile post 10.4 to Mill Creek summit at mile post 27.2. The Forest Service will make additional announcements prior to beginning work on that section of road.

For more information about this project contact Jeff Parker 208-756-5161
