WINTER RECREATION TRAVEL PLAN MAP
 Manages winter over-snow vehicle travel and winter recreation when there is an adequate depth of snow present on the ground to protect vegetative resources. When there is an inadequate depth of snow present the Wasatch-Cache National Forest District Travel Plans apply and the use of over-snow vehicles is not permitted off of designated Travel Plan routes.

A scanned version of the U.S. Geological Survey (1970), 1:250,000 map is being used for the location/reference information. This data was not used for analysis and does not represent Wasatch-Cache National Forest data. The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. WINTER RECREATION TRAVEL MAP

Logan and Ogden Ranger Districts

WASATCH-CACHE National Forest

This map describes winter travel opportunities from the beginning of the snow season in the FALL/WINTER 2005 when local conditions prevent travel on designated roads and trails by wheeled vehicles UNTIL THE TIME IN THE SPRING of 2006 when local conditions become suitable to support wheeled vehicle traffic on designated roads and trails without causing resource damage. Closures for coming years may differ based on changing conditions.

Additional closures or restrictions may be made at any time for resource protection or public safety. To avoid inconvenience, Forest visitors are encouraged to contact local District Ranger offices for current travel information.

Winter Recreation Rules to Play By

1. **Make your contacts with others pleasant. Respect the rights of all forest visitors to enjoy the beauty of the winter wonderland. Good manners and a friendly attitude will make encounters more pleasant for everyone.**
2. **Park considerately, taking no more space than needed, without blocking other vehicles and without impeding access to trails.**
3. **Keep to the right when meeting another forest visitor. Yield the right-of-way to traffic moving downhill.**
4. **Ride in control and pass others slowly. Slow down and use caution when approaching another.**
5. **Respect private property, designated Wilderness areas, trail use signs, established ski tracks and area closures.**
6. **Don't block the paths of others. Move off the trail to visit or sightsee.**
7. **Be kind to wildlife. Avoid areas posted for the protection of wildlife.**
8. **Tread Lightly and Leave No Trace. Pack out everything packed in and do not litter. Bury human waste away from trails and water.**
9. **Realize that equipment, ability, the terrain, weather, and the traffic on the trail should determine destination objective and trail speed. In case of emergency, volunteer assistance.**
10. **Respect groomed trails: Snowshoers, "skate" skiers, pet owners and hikers should avoid activities that damage groomed tracks.**
