Tony Grove - Franklin Basin Winter Recreation Decision Notice

Re: Significance of Forest Plan Amendment

It has come to my attention that the conclusion regarding the significance of the Forest Plan amendment was omitted from the Decision Notice I signed on December 22, 2006 for Tony Grove Franklin Basin Winter Recreation. The last paragraph on page 15 preceding the criteria evaluation should have concluded with the following sentence:

“After careful review of the following evaluation I conclude this is a non-significant amendment to the 2003 Wasatch-Cache National Forest Revised Forest Plan”.
