

File Code: 1950-1

Date: January 23, 2009

Dear Interested Party:

Enclosed you will find scoping documents for four new projects or permits for which the Ogden Ranger District is initiating environmental analysis. Each of these projects has a document describing the proposed decision and location maps. Our Forest resource specialists will be analyzing the social and environmental effects of the proposed projects. We welcome your comments, concerns, and suggestions regarding any or all of these proposals.

Please send any comments you might have on these projects to the address below. It would be most useful if we could receive your written comments by February 24th. The "Access Road for the Ogden City Water Storage Reservoir" project has a different comment period based on the date of the published legal notice.

If you would like further information about this project or have questions, please call the Ogden Ranger District at 801-625-5112.

You can email comments on the proposal to:

comments-intermtn-wasatch-cache-ogden@fs.fed.us

Or mail them to our address, which is:

USDA Forest Service
Ogden Ranger District
507 25th St, Suite 103
Ogden, UT 84401

Thank you for your interest in management of the Uinta-Wasatch-Cache National Forest.

Sincerely,

CHIP J. SIBBERNSEN
District Ranger
