

APPENDIX D

Lot Specific Permit Compliance & Forest Plan (FP) Requirements Porter Fork Recreation Residence Tract

(Items noted were documented in compliance letter, 8/12/2005, sent to all Rec. Residence permittees; or from compliance inspections performed during summer 2006; or during Forest Specialist on site inventories of Summer Home tracts)

Lot #	Description	Repair or Mitigation Requirements
Porter Fk. #1	Located in Riparian Habit Conservation Area (RHCA), Category 1 (FP). Footbridge over creek, old metal water wheel, teeter totter, old sand bags near footbridge, wooden planks nailed to tree	All unauthorized items removed as per Forest Service (FS) & Recreation Residence Guidelines (RRG), Forest recognizes the water wheel may have been in place prior to the cabin, in which case it will be Forests responsibility to remove
1-B	Located in RHCA, Category 1 (FP), No items identified	
2	Located in RHCA, Category 1 (FP). Footbridge shared w/cabin #3, old fence near creek, large concrete water basin, stream diversion channel, old outside fireplace, old outside outhouse	All unauthorized items removed as per FS & Rec Res guidelines. Footbridge may be needed for wheel chair access and for safety concerns? Outhouse removed after FS performs historic analysis and it may not be located on this lot?
2-B	Located in RHCA, Category 1 (FP). Lawn	All unauthorized items removed as per FS & Rec Res guidelines, lawn will be allowed to revert back to native vegetation (RRG)
3	Located in RHCA, Category 1 (FP). Footbridge shared w/cabin #2, cinder block steps to the creek, log berm along creek, old outhouse, lighting attached to trees, fire pit and rock walls near stream	All unauthorized items removed as per FS & Rec Res guidelines. Footbridge may be needed for wheel chair access and for safety concerns? Outhouse removed after FS performs historic analysis although it is sometimes used in winter? Some of the logs in the identified berm need to be removed to allow for native vegetation to be replanted and get established. (FP) The fire pit and rock walls should be moved closer to the cabin thus further from the stream. (RRG)
3-B	Located in RHCA, Category 1 (FP). Old sprinkler system, broken swing set, lighting attached to trees	All unauthorized items removed as per FS & Rec Res guidelines
4	Located in RHCA, Category 1 (FP). Lighting in trees, fire place and tables	All unauthorized items removed as per FS & Rec Res guidelines. The fire place and tables should be moved closer to the cabin thus further

		from the stream.(RRG)
Porter Fk #4-B	Located in RHCA, Category 1 (FP). None currently identified	
5	Located in RHCA, Category 1 (FP). Old outside fireplace, pile of old lumber and old swing set and other trash piled behind cabin, Xmas lights in trees	All unauthorized items removed as per FS & Rec Res guidelines
6	Located in RHCA, Category 1 (FP). Man-made rock dams in creek and associated diversion pool, wood swing attached to trees, rope swing, old outhouse/storage building, old horseshoe pit, stream bank erosion	All unauthorized items removed as per FS & Rec Res guidelines, plant native riparian vegetation in eroded areas near creek (FP)
7	Located in RHCA, Category 1 (FP). Outdoor lighting in trees	Remove lighting in trees or install posts for lighting as per FS& Rec Res guidelines
8	Located in RHCA, Category 1 (FP). Some trash and debris found around storage shed	All unauthorized items removed as per FS & Rec Res guidelines
9	Located in RHCA, Category 1 (FP). Lot is currently not occupied with a cabin or improvements	Permittee is expecting to re-construct a cabin during summer 2007, during new construction require Best Management Practices to protect stream and riparian corridor. (FP & RRG)
10	Located in RHCA, Category 1 (FP). Old outhouse on the hill, old pole on ground behind storage shed, lawn and sprinkler system for the lawn, outdoor lighting in trees	All unauthorized items removed as per FS & Rec Res guidelines, lawn will revert back to native vegetation (RRG)
11	Located in RHCA, Category 1 (FP). Rock dam structure w/pool in creek, wooden stairs going down to creek, non-needed concrete & rock retaining wall along creek, old water pond structure, rock steps and wooden railing by pond structure	All unauthorized items removed as per FS & Rec Res guidelines
12	Located in RHCA, Category 1 (FP). Satellite dish mounted to tree, use of chemical deck treatments near creek	Mount satellite dish to cabin or deck, refer to track wide chemical treatment addressed below (RRG)
13	Located in RHCA, Category 1 (FP). Footbridge, old water fall structure on hill near cabin, rock gabion made	All unauthorized items removed as per FS & Rec Res guidelines

	with chicken wire.	
Porter Fk #14	Located in RHCA, Category 2 (FP). 2 x 4 Footbridge, old lawn area, old outhouse, wooden water wheel structure, trash pile of old metal with old bed spring and old antenna, 2 outside fire structures	All unauthorized items removed as per FS & Rec Res guidelines, lawn seems to be returning back to native vegetation, remove one outside fire structure and the one kept must meet FS guidelines (RRG)
15	Located in RHCA, Category 2 (FP). Mailbox, lighting in trees, old T-Pee structure lying on ground, Bowman Fk creek bridge crossing.	All unauthorized items removed as per FS & Rec Res guidelines,
16	Located in RHCA, Category 1 (FP). None currently identified	
17	Located in RHCA, Category 1 (FP). Footbridge with railing and rock steps, rock dam pools in the stream, trails leading to the creek	All unauthorized items removed as per FS & Rec Res guidelines
17-B	Located in RHCA, Category 1 (FP). Lawn, broken PVC water pipes	All unauthorized items removed as per FS & Rec Res guidelines
18	Located in RHCA, Category 1 (FP). None currently identified	
18-B	Located in RHCA, Category 1 (FP). Sand bags along stream bank, lawn.	All unauthorized items removed as per FS & Rec Res guidelines
18-C	Located in RHCA, Category 1 (FP). Cable line & trolley seat strung from trees, lawn & mowing of lawn	All unauthorized items removed as per FS & Rec Res guidelines, lawn must be allowed to revert back to natural vegetation (RRG)
18-E	Located in RHCA, Category 1 (FP). Outside fire circle does not concur with Forest Recreation Residence Administrative Guidelines	Fire circle must be similar to what is allowed in the (RRG)
19	Located in RHCA, Category 1 (FP). Outside watering system, unauthorized use of snowmobile in Porter Fork	All unauthorized items removed as per FS & Rec Res guidelines, use of snowmobile for winter access requires written FS authorization
20	Located in RHCA, Category 1 (FP). Trash from cabin remodel on site, old outhouse	All unauthorized items removed as per FS & Rec Res guidelines
21	Located in RHCA, Category 1 (FP). Swing attached to trees w/chain, outdoor watering system, outdoor lighting	All unauthorized items removed as per FS & Rec Res guidelines

	in trees	
Porter Fk #22-A	Located in RHCA, Category 1 (FP). Old horseshoe pit	All unauthorized items removed as per FS & Rec Res guidelines and allow area to revert back to native vegetation. (RRG)
23	Located in RHCA, Category 1 (FP). Sauna structure, parking spur south of driveway	All unauthorized items removed as per FS & Rec Res guidelines, parking spur may be used by cabin #24
24	Located in RHCA, Category 1 (FP). Rock dam pools in stream, broken water pipes, wood debris & slash pile next to cabin, rope swing in tree	All unauthorized items removed as per FS & Rec Res guidelines
25	Located in RHCA, Category 1 (FP). None currently identified	
26	Located in RHCA, Category 1 (FP). Old tether ball pole, old swing set, lawn	All unauthorized items removed as per FS & Rec Res guidelines, can keep the pole or the swing set, lawn must be allowed to revert back to natural vegetation (RRG)
27	Located in RHCA, Category 1 (FP). Rope swing, outdoor fire circle	All unauthorized items removed or modified as per FS & Rec Res guidelines
30	Located in RHCA, Category 4 (FP). Rope swing, outside fire ring structure or cement BBQ unit	Only 1 fire structure allowed, All unauthorized items removed as per FS & Rec Res guidelines
31	Located in RHCA, Category 4 (FP). Old wires in trees, old wooden box (4 ft x 4 ft) in bushes	All unauthorized items removed as per FS & Rec Res guidelines
32	Located in RHCA, Category 4 (FP). Old outhouse, lighting attached to trees, excessive parking area	All unauthorized items removed as per FS & Rec Res guidelines, allow some of the parking area closest to stream to revert back to native vegetation (RRG)
33	Located in RHCA, Category 4 (FP). None currently identified	
34	Located in RHCA, Category 4 (FP). Fire ring structure needs to meet FS guidelines, unauthorized/unregistered snowmobiles stored on lot and used in Porter Fork, oil & fuel stored outside under deck	All unauthorized items removed or modified as per FS & Rec Res guidelines. Use of snowmobile for winter access requires written FS authorization.(RRG)
35	Located in RHCA, Category 4 (FP). None currently identified	

Porter Fk #36	Located in RHCA, Category 4 (FP). Basketball hoop on storage shed, access road on south side of storage shed, old pipes and sprinkler system, outdoor lighting in trees	All unauthorized items removed as per FS & Rec Res guidelines, road must be allowed to revert back to natural vegetation (RRG)
37	Located in RHCA, Category 4 (FP). Tire swing attached to trees, rope swing, old culvert lying in stream bed, rock outside fire circle	All unauthorized items removed as per FS & Rec Res guidelines, remove rock fire circle or replace it with something that meets FS guidelines
38	Located in RHCA, Category 4 (FP). Old volley ball court	Allow this area to revert back to natural vegetation
39	Located in RHCA, Category 4 (FP). Tether ball pole & volley ball pole (remove one or both if not being used), thermometer & art attached to trees, Xmas lights in trees, old decking material in stream channel	All unauthorized items removed as per FS & Rec Res guidelines
Porter Fk Tract wide	<p>Unauthorized trails leading to the stream</p> <p>Unauthorized water withdrawal points</p> <p>Vegetative treatments</p>	<p>*It is reasonable to expect some access to the stream for a cabin owner. Wherever possible this should be existing bridges and trails. All other access routes should be closed and allowed to restore to natural cover. (RRG)</p> <p>*Porter Fork Summer Home Association (PFSHA) currently has a new water system, installed late summer 2006, authorized under permit with the Forest, and under a water agreement with the City, that meets County and State regulations. All unauthorized water distribution pipes, pumps and intake systems should be removed. Use of water by PFSHA must comply with the water use agreement with Salt Lake City. (RRG)</p> <p>Outside sprinkler systems to water vegetation are not allowed.(RRG)</p> <p>Cabins can have an outside water faucet and hose that is available for emergency fire suppression. (RRG)</p> <p>*Approval is required to remove hazard trees in riparian areas. Where possible, hazard trees should be left full length and not cut up into firewood lengths to provide large woody debris and down wood. (FP)</p> <p>Minimize vegetative treatments in RHCA's. (RRG)</p>

	<p>Water pollution (sediment)</p> <p>Water pollution(chemical)</p> <p>Fish passage</p> <p>General maintenance</p> <p>Winter Motorized Access in Mill Creek and into Porter Fork.</p>	<p>*Install water bars to reduce runoff velocity. Minimize vegetative treatments in RHCA's. (RRG)</p> <p>*Convert over time all building materials in RHCA's to non-maintenance type materials, ie., decks and bridges should not be chemically treated but converted to materials needing no maintenance.(RRG)</p> <p>*Breakup all man-made rock weirs in perennial stream channels. Convert culverts to be fish passable structures when replaced. (RRG)</p> <p>*Remove trash from lots (bricks, blocks, building materials, scrap metal, sand bags, equipment not being used, etc.) (RRG)</p> <p>*As per the Winter Recreation Travel Map, Salt Lake Ranger District, dated 12/15/2005, Mill Creek Canyon is closed to over the snow motorized recreation use and travel on National Forest lands. Use of snowmobile for winter access requires written FS authorization.</p>
