

On Saturday, August 21st the Eldorado National Forest, Placerville District Fire Prevention team and Engine 64 made a public appearance with Smokey bear at the Pine Wood elementary school. The occasion was a community celebration of the recently remodeled school playground. Smokey was invited to the event to remind everyone to not play with matches and always be fire safe. The engine showed the spectators their fire fighting equipment and talked about Fire Safety. The event was a success and everyone learned a lot from Smokey.
