

# Herger Feinstein Quincy Library Group Supplemental Environmental Impact Statement Reader's Guide

## Introduction

This is the electronic version of the Supplemental Environmental Impact Statement for the Herger-Feinstein Quincy Library Group project, published by USDA Forest Service and released on July 31, 2003.

This version, posted on the internet at [www.fs.fed.us/r5/hfqlg/](http://www.fs.fed.us/r5/hfqlg/), contains the same text, figures, tables, and maps as the hard copy version. Due to minor format changes necessary for preparing the electronic version, there may be some differences in pagination between the printed and digital versions. To navigate through the documents, use the bookmarks feature of Acrobat reader. The files are designed to open with the bookmarks pane visible. If it is not visible, use the View pulldown, then select Navigation tools, and then Bookmarks.

Due to the large size of the document, it has been broken into the individual file names shown in the table of contents. The document has been prepared as accessible Adobe Acrobat (.pdf) files. Acrobat documents can be viewed, navigated, and printed with the freely available Adobe Acrobat reader, available online from [www.adobe.com/](http://www.adobe.com/). At this writing, the most current version is 6.0, which is recommended to take advantage of all of the accessibility features in the documents.

A broadband internet connection is recommended for online downloads, due to the large sizes of some of the files. This document is also available in hard copy from these offices:

**Herger-Feinstein Quincy Library  
Group Pilot Project** 159 Lawrence Street  
P.O. Box 11500  
Quincy, CA 95971
