Date: July 21, 2004

Dear Interested Public:

Enclosed is the quarterly NEPA (National Environmental Policy Act) report outlining the schedule of proposed actions (SOPA) for projects being planned on the Lake Tahoe Basin Management Unit. Currently the SOPA is mailed to many interested and affected parties, of which you are one. The SOPA is available on our website at: <http://www.fs.fed.us/r5/lbmu/>. If you would like to be removed from the mailing list and access your report electronically, please send a note to joden@fs.fed.us.

The report provides basic project-tracking information from planning through decision. This will inform you regarding Forest Service activities being planned and provide an opportunity for you to comment prior to the decision. It is important to note that the information in the SOPA may change from quarter to quarter as the project progresses through the planning process. Any questions may be directed to the contact person indicated for each project in the report. By contacting this person, you may request that your name be added to the project mailing list and receive information as project planning proceeds.

The Lake Tahoe Basin Management Unit is dedicated to restoring and maintaining healthy Lake Tahoe ecosystems, while providing high quality outdoor recreation experiences. Your continued interest and participation in the management of your National Forest is appreciated.

Sincerely,

MARIBETH GUSTAFSON
Forest Supervisor
