

GIANT SEQUOIA NATIONAL MONUMENT

Final Environmental Impact Statement

TABLE OF CONTENTS

	<u>Page</u>
Summary.....	i
Chapter I. Purpose of and Need for Action.....	1
Purpose and Need.....	2
Proposed Action.....	5
Decision to be Made.....	5
Scientific Advisory Board.....	6
Public Involvement.....	6
Desired Conditions.....	7
Issues.....	20
Chapter II. Alternatives Including the Proposed Action.....	28
Alternatives Considered in Detail.....	29
Computer Modeling and Treatments.....	32
Management Direction Common to All Alternatives.....	41
Alternative 1 (No Action).....	44
Management Direction Common to All Action	
Alternatives.....	44
Management Goals.....	44
Management Emphases.....	47
Monitoring, Scientific Study, and Adaptive Management.....	48
Alternative 2 (Proposed Action).....	51
Management Strategies.....	51
Management Goals.....	52
Allocations, Standards and Guidelines.....	53
Management Areas and Emphases.....	54
Alternative 3.....	57
Management Strategies.....	58
Management Goals.....	59
Allocations, Standards and Guidelines.....	60
Management Areas and Emphases.....	62
Alternative 4.....	66
Management Strategies.....	66
Management Goals.....	68
Allocations, Standards and Guidelines.....	69
Management Areas and Emphases.....	72
Alternative 5.....	76
Management Strategies.....	76
Management Goals.....	78
Allocations, Standards and Guidelines.....	79
Management Areas and Emphases.....	81

Alternative 6.....	87
Management Strategies.....	88
Management Goals.....	89
Allocations, Standards and Guidelines.....	90
Management Areas and Emphases.....	92
Modified Alternative 6.....	97
Management Strategies.....	99
Management Goals.....	101
Allocations, Standards and Guidelines.....	102
Management Areas and Emphases.....	108
Alternatives Considered but Eliminated from Detailed Study.....	112
Comparison of Alternatives.....	113
Preferred Alternative.....	129
Chapter III. Affected Environment.....	131
Resource Management.....	132
Ecological Units.....	132
Air Quality.....	153
Caves.....	161
Fire and Fuels.....	162
Geology and Soils.....	178
Giant Sequoia and Mixed Conifer.....	180
Range.....	195
Rare Plants.....	197
Noxious Weeds.....	209
Watershed.....	210
Wildlife.....	232
Human Use.....	259
Heritage Resources.....	259
Recreation.....	269
Scenic Environment.....	277
Socio-Economics.....	281
Transportation.....	285
Roads.....	285
Chapter IV. Environmental Consequences.....	291
Assumptions.....	292
Key Modeling Assumptions.....	293
Number of Acres Treated Per Year.....	293
Resource Management.....	294
Air Quality.....	294
Caves.....	303
Fire and Fuels.....	304
Giant Sequoia and Mixed Conifer.....	313
Range.....	325
Rare Plants.....	326
Noxious Weeds.....	329
Watershed.....	329
Wildlife.....	347
Human Use.....	360
Heritage Resources.....	360
Recreation.....	364

Scenic Environment.....	381
Socio-Economics.....	383
Transportation.....	387
Roads.....	387
Other Effects.....	390
Unavoidable Adverse Effects.....	391
Relationship Between Short-Term Uses and Long-Term Productivity.....	392
Irreversible and Irretrievable Commitments of Resources.....	393
Disclosures.....	393
Chapter V. List of Preparers and Technical Consultants.....	395
Interdisciplinary Team.....	396
Technical Consultants.....	400
Chapter VI. List of Agencies, Organizations, and Persons to Whom Copies of the Statement are Sent.....	403
Scientific Advisory Board.....	404
Federal Officials and Agencies.....	404
State Officials and Agencies.....	405
Local Officials, Agencies, and Organizations.....	405
Organizations.....	406
Academic Institutions.....	407
Libraries.....	407
Businesses.....	407
Media.....	407
Individuals.....	408
Chapter VII. Glossary.....	415
Chapter VIII. References.....	435
Index.....	467
List of Tables	
Table II-1: Fire Treatments.....	36
Table II-2: Mechanical Treatments Followed by Prescribed Fire.....	39
Table II-3: Comparison of Alternatives by Issues and Indicators.....	114
Table II-4: Comparison of Alternatives by Treatment Methods.....	122
Table II-5: Comparison of Alternatives by Strategy.....	123
Table III-1: Ecological Units.....	133
Table III-2: National Ambient Air Quality Standards.....	158
Table III-3: Percentage of Lightning and Human-Caused Wildfires by Administrative Area in the Last 34 Years.....	163
Table III-4: Acres and Percentage of Lightning and Human-Caused Wildfires by Administrative Area in the Last 34 Years.....	163
Table III-5: Initial Attack Resources by Administrative Area.....	165
Table III-6: Surface Fuel Loadings found within the Mixed Conifer and Pine Forests of the Monument.....	166
Table III-7: Acres of Fire Susceptibility.....	169
Table III-8: Fire Return Interval Departures.....	171

Table III-9: Condition Classes.....	174
Table III-10: Acres by Vegetation Type.....	180
Table III-11: Summary of Ecosystem Elements and Desired Conditions.....	186
Table III-12: Percent of Grove Area by Basal Area Stocking.....	187
Table III-13: Amounts of Giant Sequoia and Other Mixed Conifer In Five Inventoried Groves.....	188
Table III-14: Groves by Fire Severity Indicator.....	189
Table III-15: Giant Sequoia Grove Groups.....	191
Table III-16: Percent of Population by Diameter.....	195
Table III-17: Grazing Allotments in the Monument.....	196
Table III-18: Federally Listed and R5 Sensitive Plants, Sequoia National Forest.....	197
Table III-19: River Basins and Watersheds In the Monument.....	212
Table III-20: Beneficial Uses for Monument Watersheds.....	213
Table III-21: Monument Subwatersheds Affected by the McNally Fire.....	224
Table III-22: Management Indicator Species for the Sequoia National Forest.....	233
Table III-23: Threatened, Endangered, Proposed Species, Sequoia National Forest.....	237
Table III-24: Sensitive Wildlife Species, Sequoia National Forest.....	238
Table III-25: Fresno County Labor Force.....	282
Table III-26: Fresno County Labor Force by Industry Sector.....	282
Table III-27: Tulare County Labor Force.....	283
Table III-28: Tulare County Labor Force by Industry Sector.....	283
Table III-29: Kern County Labor Force.....	283
Table III-30: Kern County Labor Force by Industry Sector.....	284
Table III-31: Miles of Roads in the Monument by Maintenance Level.....	286
Table III-32: Miles of Road in the Monument by Functional Class.....	287
Table III-33: 2001 Road Work Activity Costs to Maintain Five Percent of Monument Roads.....	289
 Table IV-1: Number of Acres Treated by Alternative.....	294
Table IV-2: Predicted PM10 Emissions.....	300
Table IV-3: Alternatives Ranked by PM10 Produced.....	301
Table IV-4: PM-10 Emissions After the First Decade.....	301
Table IV-5: Wildfire Emissions.....	302
Table IV-6: Fire Susceptibility Classes.....	306
Table IV-7: Acres of Moderate and High Susceptibility Treated By Alternative in the First Decade.....	306
Table IV-8: Estimated Cumulative Acreage of Stand-Replacing Fire by Alternative.....	307
Table IV-9: Fire Return Interval Departure Classes.....	307
Table IV-10: Acres That Would Move Toward Their Historic Fire Return Interval in the First Decade.....	308
Table IV-11: Summary of Changes to Condition Class by Alternative.....	309
Table IV-12: Acres of Defense Zone in Giant Sequoia Groves.....	314
Table IV-13: Predicted Acres Lost to Wildfire by Alternative.....	334
Table IV-14: Proposed Treatment Acres in Subwatersheds Over TOC as a Result of Roads, Recreation, and Urbanization.....	338
Table IV-15: Subwatersheds Where Recreation Development is Proposed.....	339
Table IV-16: Subwatersheds Affected by the McNally Fire.....	340

Table IV-17: Relative Percentage of Treatment Proposed by Fifth Field Watershed.....	341
Table IV-18: Relative Percentage of Treatments Proposed in Watersheds by Alternative.....	342
Table IV-19: Road Miles Proposed by Fifth Field Watershed.....	345
Table IV-20: Timber Harvest and Jobs Supported, 2002-2012.....	385
Table IV-21: Indicators of Social Values Regarding Forest Management, First Decade.....	386

List of Figures

Figure I-1: Location Map of the Giant Sequoia National Monument.....	3
Figure I-2: Giant Sequoia Groves.....	4
 Figure II-1: Alternative 1 (No Action); Allocations for Alternatives 1 and 2.....	Map Packet
Figure II-2: Management Areas for Alternative 2.....	Map Packet
Figure II-3: Recreation Opportunity Areas, Existing Recreation Sites, and Potential Sites for Development or Relocation.....	Map Packet
Figure II-4: Allocations for Alternatives 3 and 4.....	Map Packet
Figure II-5: Management Areas for Alternative 3.....	Map Packet
Figure II-6: Management Areas for Alternative 4.....	Map Packet
Figure II-7: Allocations for Alternative 5.....	Map Packet
Figure II-8: Allocations for Alternative 6.....	Map Packet
Figure II-9: Allocations for Modified Alternative 6.....	Map Packet
Figure II-10: Management Areas for Alternatives 5, 6, and Modified 6.....	Map Packet
 Figure III-1: California Air Districts.....	155
Figure III-2: Acres of Wildfires from the Last 33 Years.....	162
Figure III-3: Large Fire History.....	164
Figure III-4: Fire Susceptibility.....	Map Packet
Figure III-5: Fire Return Interval Departures.....	Map Packet
Figure III-6: Spot Fire Potential, Hume Lake Example.....	173
Figure III-7: Computer-generated Picture of a 2.5-acre Portion of Redwood Mountain Grove.....	182
Figure III-8: Distribution of Giant Sequoia Trees By Diameter Class in Inventoried Groves.....	193
Figure III-9: Forest-Wide Diameter/Age Correlation.....	194
Figure III-10: Monument Watersheds.....	211
Figure III-11: Recreation Opportunity Spectrum Classes.....	271
Figure III-12: Congressionally-Designated and Roadless Areas.....	274
Figure III-13: Scenic Integrity Levels.....	280
 Figure IV-1: Burn Days 1973 to 2000.....	297
Figure IV-2: Burn Day vs. Days Meeting Fuel Moisture Criteria.....	298
Figure IV-3: Burn Days Meeting Fuel Moisture Criteria.....	298
Figure IV-4: Percent of Burn Periods Greater Than 3 Days Following A “No Burn Day” and Meeting Fuel Moisture Criteria.....	299
Figure IV-5: Average Length of Days Greater Than 3 Days Following A “No Burn Day” and Meeting Fuel Moisture Criteria.....	299
Figure IV-6: Cumulative Watershed Effects of Alternatives for the First Decade in ERAs.....	346

Figure IV-7: Projected Old Growth Late Seral Stage.....	353
Figure IV-8: Projected Number of Trees > 30".....	353
Figure IV-9: Number of Snags > 15".....	354
Figure IV-10: LSOG Rankings 4 and 5.....	354
Figure IV-11: Number of Hardwoods > 15".....	355

Appendices (in separate bound volume)

Appendix A: Response to Comments.....	A-1
Appendix B: Proclamation.....	B-1
Appendix C: Scientific Advisory Board Final Report and Advisories.....	C-1
Appendix D: Summary of Framework Direction.....	D-1
Appendix E: Roads Analysis Process (RAP).....	E-1
Appendix F: Alternative Transportation Plans.....	F-1
Appendix G: Monitoring, Scientific Study, and Adaptive Management.....	G-1
Appendix H: Overview of Modeling and Prescriptions.....	H-1
Appendix I: Recreation Demand Analysis.....	I-1
