

Appendix G: Photo Gallery

Photo 1. Desired condition after thinning

Photo 2. Desired condition after standard thin, slashing and underburn

Photo 3. Stand 39-53; proposed for mature stand thin

Photo 4. Stand 39-54; proposed for hazard reduction thin, slashing, machine pile and burn

Photo 5. Stand 39-60; proposed for biomass thin

Photo 6. Stand 39-66; proposed for mature stand thin, slashing, machine pile and burn.

Photo 7. Stand 39-68; proposed for standard thin, handpile and burn

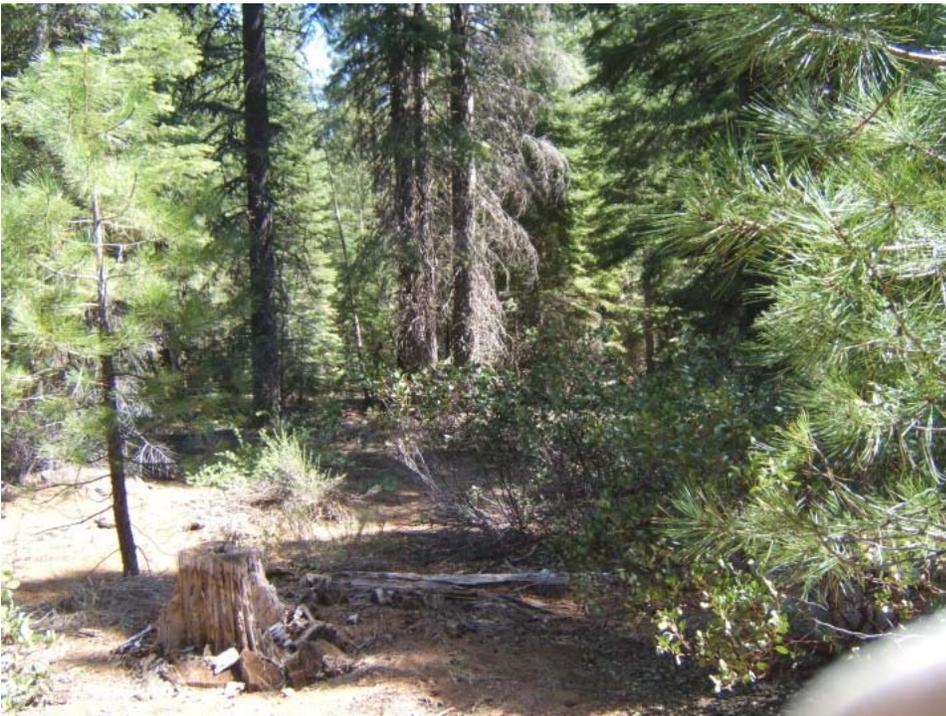

Photo 8. Stand 43-20; proposed for standard thin and underburn

Photo 9, Stand 47-101; proposed for standard thin and underburn

Photo 9. Stand 47-103; proposed for standard thin and underburn

Photo 10. Stand 48-221; proposed for regeneration harvest with green-tree retention

Photo 11. Stand 48-217; proposed for standard thin and slash

Photo 12. Stand 47-103; proposed for standard thin and underburn

Photo 13. Stand 48-210 proposed for standard thin and underburn
