

The Wild and Scenic River Study of the Merced River includes the river course downstream to 1 mile east of the Bagby Take-out at the 846' elevation. Refer to Figure E2 (Appendix E) for detailed study mapping.

Refer to Figure E3 (Appendix E) for detailed study mapping of the North and Middle Forks of the San Joaquin River.

Refer to Figure E4 (Appendix E) for detailed study mapping of the South Fork of the San Joaquin River.

**Wild and Scenic Rivers Element**

Wild and Scenic River Corridor

NOTE: The average corridor width is equal to the river course plus 1/4 mile from each bank.
