## Tillamook County, Oregon

Tillamook County is a nonmetropolitan county located on the state's northern coast. The Coast Range and the rugged Oregon Coast are primary geographical features. Compared to the state, a larger proportion of workers in Tillamook County are in farming, fishing, and forestry sectors. Top export industries include dairy farms, cheese processing, tourism, sawmills, and planing mills. Over 60% of the county's land area is non-federal timberland. Another 20% is administered by the Forest Service or the BLM. Though farms are only 5% of the land area, the County ranked second in the state for the value of livestock sold in 1992. About 90% of this value comes from dairy products

Recipient	Project Name	Federal ID	Funds
