<sub>1</sub> Outside the Distinct Population Segment boundary that is warranted but precluded by FWS.

## Appendix C-2 Fish, Amphibians, Birds, Mammals, Reptiles

### Key to Acronyms and Abbreviations Used in the Regional Forester's Sensitive Animal List

#### National Forests

CRG	Columbia River Gorge National Senic Area
COL	Colville National Forest
DES	Deschutes National Forest
FRE	Fremont National Forest
GIP	Gifford Pinchot National Forest
MAL	Malheur National Forest
MBS	Mount Baker/Snoqualmie National Forest
MTH	Mt. Hood National Forest
OCH	Ochoco National Forest
OKA	Okanogan National Forest
OLY	Olympic National Forest
ROR	Rogue River National Forest
SIS	Siskiyou National Forest
SIU	Siuslaw National Forest
UMA	Umatilla National Forest
UMP	Umpqua National Forest
WAW	Wallowa-Whitman National Forest
WEN	Wenatchee National Forest
WIL	Willamette National Forest
WIN	Winema National Forest

#### Washington Status

S	= State sensitive species
C	= State candidate for listing as threatened or endangered
E	= Listed as endangered by the State
T	= Listed as threatened by the State

#### Federal Status

C = Candidate for Federal listing under the Endangered Species Act

**WA only/OR only** In those instances where a species meets our listing criteria for only one state, the species is only considered as a RF sensitive species in the state where it is an S1 or S2. It may occur in the other state, but since it is not considered by the other state to be critically imperiled or imperiled, FS will not manage it as a sensitive species in that area.

#### Occurrence

D	= Documented Occurrence
S	= Suspected Occurrence
I	= FS Actions Influence Downstream

#### Natural Heritage Ranks

G1	= Critically imperiled globally (5 or fewer occurrences)
G2	= Imperiled globally (6-20 occurrences)
G3	= Vulnerable; either very rare throughout its range or found locally in a restricted range (20-100 occurrences)
T1	= Subspecific taxon is critically imperiled globally (5 or fewer occurrences)
T2	= Subspecific taxon is imperiled globally (6-20 occurrences)
T3	= Subspecific taxon is either very rare throughout its range or found locally in a restricted range (20-100 occurrences)
N1	= Critically imperiled nationally
N2	= Imperiled nationally
N3	= Either very rare throughout its range or found locally in a restricted range nationally
S1	= Critically imperiled in respective state
S2	= Imperiled in respective state

#### Oregon Status

SC	= Sensitive species, critical category
SV	= Sensitive species, vulnerable category
SP	= Sensitive species, peripheral or naturally rare category
SU	= Sensitive species, undetermined status
E	= Listed as endangered by the State
T	= Listed as threatened by the State
