**Appendix C-4 Final Sensitive Plant List Survey and Manage
Key to Acronyms and Abbreviations Used in the Regional Forester's Sensitive Plant List**

<u>National Forests</u>	<u>Occurrence</u>	<u>Former Survey and Manage Category</u>
CRG	Columbia River Gorge National Scenic Area	D = Documented Occurrence S = Suspected Occurrence I = FS Actions Influence Downstream
COL	Colville National Forest	A = Rare, pre-disturbance surveys practical B = Rare, pre-disturbance surveys not practical
DES	Deschutes National Forest	C = Uncommon, pre-disturbance surveys practical D = Uncommon, pre-disturbance surveys not practical
FRE	Fremont National Forest	E = Rare, status undetermined F = Uncommon or concern for persistence unknown, status undetermined
GIP	Gifford Pinchot National Forest	
MAL	Malheur National Forest	
MBS	Mount Baker/Snoqualmie National Forest	G1 = Critically imperiled globally (5 or fewer occurrences) G2 = Imperiled globally (6-20 occurrences)
MTH	Mt. Hood National Forest	G3 = Vulnerable; either very rare throughout its range or found locally in a restricted range (20-100 occurrences)
OCH	Ochoco National Forest	
OKA	Okanogan National Forest	
OLY	Olympic National Forest	T1 = Subspecific taxon is critically imperiled globally (5 or fewer occurrences)
ROR	Rogue River National Forest	T2 = Subspecific taxon is imperiled globally (6-20 occurrences)
SIS	Siskiyou National Forest	T3 = Subspecific taxon is either very rare throughout its range or found locally in a restricted range (20-100 occurrences)
SIU	Siuslaw National Forest	
UMA	Umatilla National Forest	
UMP	Umpqua National Forest	N1 = Critically imperiled nationally
WAW	Wallowa-Whitman National Forest	N2 = Imperiled nationally
WEN	Wenatchee National Forest	N3 = Either very rare throughout its range or found locally in a restricted range nationally
WIL	Willamette National Forest	
WIN	Winema National Forest	S1 = Critically imperiled in respective state S2 = Imperiled in respective state
		Oregon Status
		SC = Sensitive species, critical category SV = Sensitive species, vulnerable category SP = Sensitive species, peripheral or naturally rare category SU = Sensitive species, undetermined status E = Listed as endangered by the State T = Listed as threatened by the State
		Federal Status
		C = Candidate for Federal listing under the Endangered Species Act C1=For USDI Fish and Wildlife Service, listing is warranted but precluded by higher priority species. C2=For USDC National Marine Fisheries Service, species is undergoing a status review.
		WA only/OR only In those instances where a species meets our listing criteria for only one state, the species is only considered as a RF sensitive species in the state where it is an S1 or S2. It may occur in the other state, but since it is not considered by the other state to be critically imperiled or imperiled, FS will not manage it as a sensitive species in that area.
