

List of Preparers

The following is a list of contributors to this environmental impact statement. Numerous other Forest Service employees contributed to the completion of this document through their assistance in support functions, and/or by providing Forest level data and other information needs. Their help is greatly appreciated.

Interdisciplinary Team Members

Eugene Skrine - Team Leader, Responsible for supervising and managing team activities: scheduling facilitation, coordination, plus liaison to the Forest Supervisors and the Regional leadership. Education: BS Forest Administration, w/graduate work in Silviculture and Forest Ecology. Experience: District Ranger (4yrs) and District Silviculturist (11 yrs).

Shawna Bautista - Wildlife Biologist, USDA Forest Service, Pacific Northwest Region. Education: B.S. Wildlife Management; M.S. Zoology and Physiology. Experience: habitat and endangered species management, consultation, NEPA writing and reviewing, exotic plant control in endangered species habitat; with the Forest Service since 1989.

Janet Braymen - Computer Specialist/GIS, USDA Forest Service Pacific Northwest Region. Education: B.S. Interdisciplinary Studies: Natural Science, Social Science, and Communication. Experience: GIS Specialist with technical background in forest management (timber and silviculture); with the Forest Service since 1979.

Lia Spiegel - Entomologist, USDA Forest Service Wallowa-Whitman National Forest. Education: B.A., M.S. Insect Ecology. Experience: Forest Health Protection, Region 6 since 2001; Wyoming State Forestry Division 1995-1999.

Dennis Weber - Writer/Editor, USDA Forest Service, Pacific Northwest Region. Education: B.S. Resource Management. Experience: Forest management planning, NEPA coordination, Team Leader in forest health protection; with the Forest Service since 1975.

Robert Rietman - Data Manager, USDA Forest Service, Pacific Northwest Region. Education: B.S. Forestry. Experience: Certified Silviculturist since 1978, forest planning, and NEPA coordination; with the Forest Service in Regions 2,5, and 6 since 1967.

Laura Bell - Public Affairs Specialist, USDA Forest Service, Pacific Northwest Region. Education: College of Southern Idaho and Boise State University. Experience: Public involvement and outreach programs in local and federal government since 1983.

Cathleen Selby - Office Administrator, USDA Forest Service, Pacific Northwest Region. Education: A.S., B.S. Oregon Institute of Technology. Experience: office assistant for special projects, clerical staff positions; with the Forest Service since 1995.

Dottie Knecht - Botanist, USDA Forest Service, Pacific Northwest Region. Education: B.A. English, B.S. Natural Resource Management, and M.S. Biology. Experience: Land management planning, invasive plant management, past member Chelan County and Washington State weed boards; with Forest Service since 1993.

Jan Robbins - Hydrologist, USDA Forest Service, Siuslaw National Forest. Education: B.S. Biology Education, post baccalaureates work in mathematics and hydrology. Experience: Land management planning as hydrologist and hydrologic technician; with the Forest Service since 1978 (discontinuously).

Evan Glenn - Social Scientist, USDA Forest Service, Pacific Northwest Research Region. Education: B.S. Human Dimensions of Natural Resource Management, M.S. Environmental Science, M.S. Resource Recreation and Tourism. Experience: Field science education, and natural resource social science; with the Forest Service since 2003.

Linda C. Mazzu – Botanist/Plant Ecologist, USDA Forest Service Pacific Northwest Region. Education: B.S. Recreation and Park Management; M.S. Natural Resources. Experience: Natural resources management, rare species protection and management, habitat management and conservation, invasive plant management, landscape management planning – thirteen years with the National Park Service; nine years with the Bureau of Land Management.

Gary K. Smith - Invasive Plants Program Manager and Integrated Weed Management Specialist, USDA-Forest Service, PNW Region. Education: B.S. Forestry, M.S. Silviculture. Experience: Certified silviculturist; timber sale planning and administration; Integrated Pest Management; invasive plant management; with Forest Service since 1976.

Richard Phillips - Regional Economist, USDA Forest Service, Pacific Northwest Region. Education: B.S., M.S. Forest Economics. Forest Service Regional Economist since 1988.

Specialists

Michael Daugherty - Program Manager and Natural Resource Specialist, USDA Forest Service, Pacific Northwest Region. Education: B.S. Forest Resource Management. Experience: Timber program manager, project design and implementation, NEPA coordinator and writer, land resource valuation, and Regional Contracting Officer; with the Forest Service since 1975.

Bob Fujimoto - Group Leader Minerals and Geology, USDA Forest Service, Pacific Northwest Region. Education: B.A. Physical Science, B.A. Geology. Experience: Federal minerals management for 26 years; with the Forest Service since 1989.

James Keyser - Regional Archaeologist, USDA Forest Service, Pacific Northwest Region. Responsible for: Review of cultural resources. Education: B.A., M.A., Ph.D., Anthropology/Archaeology. Experience: Cultural Resource Program Manager for the USDA Forest Service for 25 yrs.

Terry Slider - Regional Landscape Architect, USDA Forest Service, Pacific Northwest Region. Education: B.S. Landscape Architecture, Professional Registered Landscape Architect. Experience: 24 years public service with the USDA Forest Service in the Pacific Northwest and Southern Regions, 6 years non-federal public and private practice.

Joel E. (jeep) Pagel – Wildlife Ecologist, USDA Forest Service, Pacific Northwest Region. Education: B.S. Wildlife Management, Ph.D. Candidate, Integrated Ecology. Experience: Endangered Species research and management, and endangered species consultation; with the Forest Service since 1983.

Louisa Evers - Fire Ecologist, USDI Oregon State Office, Bureau of Land Management and USDA Forest Service, Pacific Northwest Region. Education: BS Forest Resources, MS Forest Management (Fire Ecology). Experience: Fuels management, wildland fire suppression, wildland fire use, fire ecology, and NEPA; with the BLM and Forest Service since 1981.

Glenn Adams - Range Conservationist, USDA Forest Service, Pacific Northwest Region. Education: B.S. Range Management and Wildlife Habitat. Experience: 29 years federal and public natural resource experience in consulting, education, and federal range management.

Byron L. Cheney - Range and Noxious Weed Program Manager, USDA Forest Service, Ochoco and Deschutes National Forest. Education: BS Range Management, Washington State University, 1974. Experience: Range Conservationist 1975-1992 Wallowa-Whitman NF, Ochoco NF and Crooked River National Grassland. District Ranger, Crooked River National Grassland 1992-2001.

Tom Erkert - Transportation Engineer, USDA Forest Service, Pacific Northwest Region. Education: B.S. Forest Engineering, M.S. Civil Engineering. Experience: Logging Engineering, Transportation Planning, Road Location, Survey, Design, Construction, Road Management, GIS Coordinator, Infra Travel Routes Coordinator, Acting Group Leader for Transportation Planning. Experience: with Forest Service since 1980

Les McConnell - Tribal Government Staff Assistant, USDA Forest Service, Pacific Northwest Region. Education: B.S. Forest Resources. Experience: 27 years of natural resource management and tribal affairs; with the Forest Service since 1990.

Susan Sater - Regional Wilderness, Wild and Scenic River, and Congressional Designations Program Manager, USDA Forest Service, Pacific Northwest Region. Education: B.A. Art, B.S. Forestry, graduate study in Forest Ecology. Experience:

planning, ecology, air quality, silviculture, wild and scenic rivers, and wilderness; with the Forest Service since 1976.

William L. McArthur - Regional Silviculturist, USDA Forest Service, Pacific Northwest Region. Education: BS Forestry (Forest Business Management) and MS Forest and Range Management (Emphasis Silviculture). Experience: Timber Sale Preparation and Administration, Silviculture, Litigation, Timber Management Planning, and Land Management Planning; with the Forest Service since 1970.
