

Differences between the Hardcopy printing and the CD and Internet versions

August 11, 2004

“Looks good on paper” apparently needs to be modified to *“Looks good in PDF”*.

There are some stylistic differences between the hardcopy version and the electronic version of the Invasive Plant DEIS. I’m sure there are more, but we believe we corrected the most glaring.

Page numbers are the same in the main documents (hardcopy/electronic).

Content differences between the hardcopy and the electronic version (found after going to print)

Chapter 2 Page 2 (page 44 when Adobe scrolling) – Alternative B
(See Discussion in Chapter 2.7 for rationale) not Chapter 2.9.

Chapter 2 Page 15 (pg 57 when Adobe scrolling) – Goal 3 - added Objective 3.2
Objective 3.2 – Reduce reliance on herbicide use over time in the Region (Proposed Action and Alternative B only).

Chapter 2 Page 23 (pg 65 when Adobe scrolling) – Standard Number 17, Project Action
No corollary standard (Addressed as Objective 3.2), not 3.4.

Chapter 4 Page 99 (pg 283 when Adobe scrolling) – just above Cumulative Effects
Effects on grazing and range management are displayed in Table 4-37, not 4-31.

The **Glossary** displayed major stylistic problems when it was converted PDF so it was cleaned up for the electronic version.

Appendix D--both of them--had some heading and spacing issues. We hope they are visually clearer. The pagination likely changed.
