Target Group

- Helicopter Crewmembers
- Aircrew Members
- IA crewmembers

Prerequisites

- S-271 Helicopter Crewmember

Course Description

- This refresher training is intended to meet the recurrent training requirement established in FSH 5109.17 for Helicopter Crewmember (HECM). Students will complete A-200, a review of the helicopter accident on the IPNF and A-219 external load operations. A-110 (Aviation Transportation of Hazardous Materials) will be presented.

Course Objectives

- Review employee safety while working around helicopter operations. (Re-Currency requirement every 3 years)
- Comply with DOT Regulations 49 CFR 171.8 for transportation of hazardous materials. (Re-Currency requirement every 3 years)
- Recertify students in the use of long line operations A-219. (Re-Currency requirement every 3 years)

COST

- No tuition. Students and instructors are responsible for travel and per diem.
