-

Course Description

- This refresher is designed for any person who works in or around aircraft to ensure the successful outcome of the mission. All units in the Interagency Aviation Training Module B-3 will be covered. This includes; A-101 (Aviation Safety), A-105 (Aviation Life Support Equipment), A-106 (Aviation Mishap Reporting), A-108 (Preflight Checklist and Briefing/Debriefing), A-110 (Aviation Transportation of Hazardous Materials) and A-113 (Crash Survival), A-209 (Take off and landing areas). We will also include A-104 (Overview of Aircraft Capabilities and Limitations) to include the new load calculation forms.
- A-219 Class and Field (Second Day)

Course Objectives

- Review employee safety while working around helicopter and airplane operations.
- Review aircraft capabilities and limitations and complete new load calculation forms.
- Demonstrate appropriate use Aviation life support equipment.
- Describe agency policy on procedures for reporting aircraft accidents and incidents.
- Describe the step by step process to assure a safe and efficient flight.
- Identify critical actions required to increase survivability in the event of an aircraft accident.
- Comply with DOT Regulations 49 CFR 171.8 for transportation of hazardous materials. (Re-currency requirement every 3 years).
