

Training Announcement

S-215 Fire Operations in the Wildland/Urban Interface

Nominations due by March 28, 2011

Minimum number of students: 15 Maximum number of students: 25

Description: This course is designed to assist structure and wildland firefighters who will be making tactical decisions when confronting wildland fire that threatens life, property, and improvements, in the wildland/urban interface. Instructional units include interface awareness, sizeup, initial strategy and incident action plan, structure triage, structure protection tactics, incident action plan assessment and update, followup and public relations, and firefighter safety in the interface.

Objectives:

- This course provides students with the skills and knowledge to sizeup a wildland/urban interface fire incident, evaluate the potential situation, order and deploy the necessary resources, and apply safe and effective strategy and tactics to minimize the threat to life and property.

DATE(S) OF CLASS: April 9,10,16,17, 2011(0800-1700)

COST: \$25 per Student

PREREQUISITES: Wildland Fire Agencies: Students must be Firefighter Type 1 (FFT1) qualified. Structural Fire Departments: Students should have completed FFT2 Training. ***Students attending this course must be knowledgeable of their agency firefighting policy as it relates to wildland/urban interface fires.***

TARGET GROUP: *Wildland Fire Agencies:* This course is required training for initial attack incident commander type 4 (ICT4) and strike team leader (tractor/plow, dozer, engine, or crew).

Structural Fire Departments: This training is appropriate for engine operators, chief officers, and company officers responsible for structure protection in suburban and urban interface areas that may be threatened by wildland fire.
