Re: Azurite

Cheryl is the OSC. We will get a letter out designating her for sites in Washington (except Holden). Dennis will be OSC for all Oregon sites (except WK/LL). We need some transition time with Dennis since he is the COR for the SI contract since Cheryl is not yet certified as a COR to handle the contract work. We had a discussion with the Contracting Officer this week and we will designate Cheryl an inspector-in-training so she can review contract documents, etc. and stay involved with the contract work. Rod will remain the Forest contact.
