

Chapter 1 - Purpose and Need

Introduction.....	1-1
Project Area.....	1-1
Purpose and Need for Action.....	1-4
Proposed Action.....	1-8
Decision Framework.....	1-8
Management Direction.....	1-10
Goals and Desired Future Conditions.....	1-11
Scoping.....	1-13
Treaty Rights.....	1-13
Issues.....	1-14
Permits and Licenses.....	1-17
Project Record.....	1-17
Decisions to be Made.....	1-17
Preview of Remaining Chapters.....	1-17

Chapter 2 - Alternatives

Introduction.....	2-1
Range of Alternatives.....	2-1
Alternatives Considered in Detail.....	2-1
Alternatives Considered but Eliminated from Detailed Study.....	2-17
Potential Knutsen-Vandenburg Projects.....	2-20
KV Projects Requiring Separate Analysis.....	2-20
Management Requirements and Project Design Elements.....	2-20
Monitoring and Evaluation.....	2-25
Comparison of Alternatives.....	2-26

Chapter 3 – Environmental Consequences

Forest Vegetation.....	3-2
Fuels.....	3-17
Soils.....	3-38
Hydrology.....	3-44
Aquatic Habitat and Fish.....	3-52
Terrestrial Wildlife.....	3-62

Botanical Species 3-145

Weeds 3-147

Range 3-150

Air Quality 3-152

Recreation 3-156

Landscape Characteristics..... 3-162

Cultural Resources 3-166

Treaty Rights 3-168

Economics 3-169

Compliance with Other Laws, Regulations, and Policies 3-171

Chapter 4 – Supporting Information

Scoping and 30-day Comment Period 4-1

Tribes..... 4-1

Government Agencies 4-2

Universities 4-3

Industry 4-4

Organizations..... 4-4

Individuals..... 4-5

Interdisciplinary Team..... 4-6

Bibliography

- Appendix A – Best Management Practices
 - Appendix B – Unit Data Sheet
 - Appendix C – Screens Consistency
 - Appendix D – Roads Analysis
 - Appendix E – Existing and Predicted Detrimental Soil Condition (DSC)
 - Appendix F – Cumulative Effects List of Projects Considered
 - Appendix G – Stand Structures
-

List of Tables

Chapter 1

Table 1-1. Management Areas in the Wildcat project.....	1-10
---	------

Chapter 2

Table 2-1: Forest Plan standards for downed wood (pieces per acre) by Forest Plan working group and Plant Community Type.....	2-23
Table 2-2: Summary of Wildcat Alternatives	2-26
Table 2-4. Mechanical Fuel Treatments by Management Area.....	2-27
Table 2-5. Prescribed Fire by Management Area.....	2-27
Table 2-6. Comparison Response to Purpose and Need by Alternative	2-29
Table 2-7. Comparison of Effects to Resources by Alternative	2-30

Chapter 3

Table V-1. Existing cover types in the Wildcat analysis area.	3-2
Table V-2. Potential vegetation groups (PVG) of the Wildcat analysis area.....	3-3
Table V-3. Existing Cover Types by PVG for the Wildcat analysis area.....	3-4
Table V-4. Acres Moved Toward Historic Species Composition by Alternative.....	3-6
Table V-5. Existing forest structural classes by Potential Vegetation Groups.	3-7
Table V-6 Current historical range of variability (HRV) analysis for the forest structural classes in the Wildcat analysis area.....	3-8
Table V-7: Forest density analysis for the Wildcat analysis area – Existing conditions.....	3-12
Table V-8. Density analysis for the Cold Upland Forest.....	3-12
Table V-9. Density analysis for the Moist Upland Forest.....	3-12
Table V-10. Density analysis for the Dry Upland Forest.....	3-12
Table V-11: Density analysis for the Cold Upland Forest for Alternative 2.....	3-13
Table V-12: Density analysis for the Moist Upland Forest for Alternative 2.....	3-13
Table V-13: Density analysis for the Dry Upland Forest for Alternative 2.....	3-13
Table V-14. Density analysis for the Cold Upland Forest for Alternative 3.....	3-13
Table V-15. Density analysis for the Moist Upland Forest for Alternative 3.....	3-13
Table V-16. Density analysis for the Dry Upland Forest for Alternative 3.....	3-13
Table V-17. Density analysis for the Cold Upland Forest for Alternative 4.....	3-14
Table V-18. Density analysis for the Moist Upland Forest for Alternative 4.....	3-14
Table V-19. Density analysis for the Dry Upland Forest for Alternative 4.....	3-14
Table V-20. Forest density analysis for Alternative 2 for the Wildcat analysis area	3-14

Table V-21. Forest density analysis for Alternative 3 for the Wildcat analysis area	3-14
Table V-22. Forest density analysis for Alternative 4 for the Wildcat analysis area	3-15
Table F-1: Current Condition Class by Potential Vegetation Group (PVG) and Fire Regime.....	3-18
Table F-2: Historic Condition Class by Potential Vegetation Group (PVG) and Fire Regime. (Source: Umatilla FRCC lookup table by David Swanson).....	3-18
Table F-3: Comparison of alternatives and the desired condition for upland forest fire regime condition class.....	3-18
Table F-5: Shift in stand replacement fire potential acres pre and post treatment.	3-30
Table F-6: Shift in stand replacement fire potential acres pre and post treatment.	3-32
Table F-7: Acres of crown fire potential divided into 5 relative measures of severity.	3-33
Table F-8: Acres of crown fire potential by severity rating.....	3-34
Table F-9: Change in acres of crown fire potential post treatment.....	3-35
Table F-10: Change in acres of crown fire potential post treatment.....	3-36
Table F-11: Change in acres of crown fire potential post treatment.....	3-37
Table S-1. Summary Comparison of Soil Effects by Alternative.....	3-40
Table H-1: Sedimentation indicators by alternative.....	3-47
Table H-2: Base line percent shade by stream reach from stream surveys, 1992-2001.....	3-48
Table W-01. Dedicated Old Growth habitat within the Wildcat analysis area.....	3-64
Table W-02. Historic range of variability (HRV) analysis for late and old forest structural classes in the Wildcat analysis area.....	3-66
Table W-03. Existing condition of late and old structure habitat in the Wildcat analysis area.	3-66
Table W-04. LOS acres* by treatment type under the Proposed Action.....	3-70
Table W-05. LOS acres* by treatment type under Alternative 3.....	3-70
Table W-06. LOS acres by treatment type under Alternative 4.....	3-71
Table W-7. Acres of burning under the Proposed Action, and Alternatives 3 and 4.....	3-73
Table W-08. Existing Conditions and Forest Plan Standards for Snag Density in the Wall Creek Watershed.....	3-74
Table W-09. DecAID Tolerance Levels for the White-headed Woodpecker in the Ponderosa Pine/Douglas-fir Forest.....	3-76
Table W-10. DecAID Tolerance Levels for the Pileated Woodpecker in the Eastside Mixed Conifer Forest.....	3-78
Table W-11. DecAID Tolerance Levels for the American Marten	3-80
Table W-12. Adjusted snag densities for the Wildcat analysis area.....	3-83
Table W-13. Existing downwood density in the Wildcat analysis area.....	3-91

Table W-14. Acres of mechanical fuels treatment and burning	3-93
Table W-15. A comparison of standards and existing conditions for Rocky Mountain elk habitat in the Wildcat analysis area.....	3-96
Table W-16. Post harvest condition of Rocky Mountain elk habitat in the Wildcat analysis area.	3-98
Table W-17. Vegetative Treatment by Alternative.....	3-98
Table W-19. Existing condition of suitable pileated woodpecker habitat in the Wildcat analysis area.....	3-105
Table W-20. Expected effects on pileated woodpecker habitat by habitat type and treatment type.	3-106
Table W-20. Existing condition of suitable northern three-toed woodpecker habitat in the Wildcat analysis area.	3-109
Table W-21. Acres of northern three-toed woodpecker foraging habitat treated by alternative.....	3-110
Table W-22. Existing condition of suitable pine marten habitat in the Wildcat analysis area.....	3-112
Table W-23. Acres of suitable pine marten habitat treated by treatment type.	3-113
Table W-25. Existing condition of suitable wolverine habitat in the Wildcat analysis area.	3-116
Table W-26. Acres of suitable California wolverine foraging habitat treated by treatment type.....	3-117
Table W-27. Acres of white headed woodpecker habitat treated by habitat type and treatment type.	3-124
Table W-28. Acres of Lewis' woodpecker habitat treated by treatment type.....	3-126
Table W-29. Road-related activities under the Wildcat Project.	3-129
Table W-30. Species of Interest in the Wildcat Analysis Area.....	3-131
Table W-31. Suitable northern goshawk habitat in the Wildcat analysis area.	3-131
Table W-32. Acres of northern goshawk habitat treated by habitat type and treatment type.	3-132
Table W-33. Priority Habitat Features and Associated Landbird Species for Conservation in the Northern Rocky Mountain Landbird Conservation Region of Oregon and Washington (Altman 2000).....	3-138
Table N- 1: Disturbance and Noxious Weed Potential Spread by Alternative	3-148
Table P-1: Proposed burning: Acres	3-154
Table P-2: Emissions PM10 and PM2.5 produced (tons):.....	3-154
Table R-1: Number of Dispersed Sites by Management Area.....	3-157
Table R-2: Proximity of Proposed Treatment Units to Dispersed Campsites	3-157
Table U-1: Acres of Areas with Wilderness Potential	3-163
Table E-1: Financial Summary by Alternative	3-170
Table W-24: Endangered, Threatened, Proposed and Sensitive Species with the Potential to Occur within the Wildcat Project Area.	3-115

List of Figures

Chapter 1

Figure 1-1: Location of the Wildcat Fuels Reduction and Vegetation Management Project Area...1-2

Figure 1-2: Wildcat Fuels Reduction and Vegetation Management Project 1-3

Chapter 2

Figure 2-1. Wildcat Management Area Designation..... 2-7

Figure 2-2. Alternative 2 – Proposed Action, Commercial and Noncommercial Thinning 2-7

Figure 2-3. Alternative 2 – Proposed Action, Mechanical Fuels Treatment and Fuels Reduction 2-8

Figure 2-4. Alternative 3 – Commercial and Noncommercial Thinning..... 2-11

Figure 2-5. Alternative 3 – Mechanical Fuels Treatment and Fuels Reduction 2-12
