

**ONE CARELESS MOMENT
AND WE ALL LOSE,
PREVENT
WILDFIRES!**

WILDFIRE

DEBRIS BURNING TIPS

-  *Build debris piles away from structures, vegetation, power lines or other flammable material.*
-  *Cover piles and wait until after it rains to burn.*
-  *Clear litter and grass at least 5 feet away from piles.*
-  *Keep piles small and free of dirt.*
-  *If burning debris in a barrel, cover top with a 1/2" or less mesh screen.*
-  *Never leave a burning debris pile unattended.*
-  *Make sure the pile is **DEAD OUT** before leaving the site.*
