

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

100 COMPACT AUTHORITY/ACTIVATION

The mobilization plan is authorized under Article III of the Southeastern States Forest Fire Compact Commission and Article IV of the South Central States Fire Compact Commission.

Officers of the Southeastern States Forest Fire Compact Commission are elected annually from the Compact Administrators and Commission. Current (2003-2004) officers are as follows:

Chair:	Bob Lazenby, (Georgia)
Secretary-Treasurer:	Fred Allen (Georgia)

The Chair of the South Central States Forest Fire Protection Compact Commission is filled by the Compact Administrator of each Compact State on an annual rotation basis (Oklahoma, Texas, Arkansas, Louisiana, and then Mississippi). The Vice Chair position will be filled by the state next in line to fill the Chair position. The Secretary is filled on a permanent basis by a member of the Louisiana Forestry Commission. Current (2003-2004) officers are as follows:

Chair:	Jim Hull (Texas)
Vice Chair:	Jim Sledge (Mississippi)
Secretary-Treasurer:	Kirk Casanova (Louisiana)

The Compact Coordinator for both Compacts is ordinarily the Forest Service Fire and Aviation Emergency Operations officer, and the Deputy Compact Coordinator is the Southern Area Coordinator. Current incumbents are:

Compact Coordinator:	Marc Rounsaville (Fire and Aviation Management)
Deputy Coordinator:	J.P. Greene (F&AM, SACC)

Either Compact is activated when the Compact Coordinator or Deputy is notified by a member state, or when a member state places a compact resource order requesting resources (see "Mobilization" below). When one Compact is activated, the Compact Coordinator or Deputy will notify the Chair of the Southeast and the South Central Compacts.

Bylaws of both Compacts have provision for reimbursement of costs of dispatching assistance; however, this aspect is left to the members involved for determination.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

101 OBJECTIVES AND CONTENT

- A. Provide an orderly, timely, cost efficient method of providing aid to requesting Compact States.
- B. Ensure that aid can be obtained within 12 hours of initial request.
- C. Provide a system to collect and distribute timely fire information between Compact States.
- D. Provide a means of dispatching resources both within and outside the Compact.
- E. Provide a method of Compact Incident Reviews.
- F. Establish a listing of compact resources.

102 MUTUAL AID PROCEDURES

102.1 PREMOBILIZATION

1. Each Compact State will furnish the Coordinator with a listing of resources available as outlined in the appendix by January 1 each year. (APPENDIX H)
2. Daily fire activity will be reported by the States (via their State Coordination Center) to the Compact Coordinator using the following (APPENDIX A):
 - a. Number of Fires.
 - b. Acres burned.
 - c. Pertinent fire danger information (weather, etc.).
 - d. Synopsis of previous day activity (property damage, etc.).

102.2 MOBILIZATION

1. Compact Activation: Coordinator will advise Compact Chairman that Compact has been activated and keep the Compact Chairman advised.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

2. Aid Request:
 - a. Unlike co-op resource orders, which are processed by the State Interagency Coordination Centers, compact resource orders are placed by the requesting State directly with SACC.
 - b. Requesting State will contact the Compact Coordinator outlining its needs as to personnel, equipment, or other support. A resource order form will be completed by the requesting State and faxed to SACC.
 - c. Compact State Aid Available - The Coordinator will contact the compact State best able to meet the request.
 - d. No Compact Aid Available - The Coordinator will continue to contact other States, U.S. Forest Service, cooperators, other fire protection compacts, and other sources until the requested resources are located. Requesting State will be contacted for decision before a firm order is made.
 - e. Dispatch Procedure - The Coordinator will work with both the receiving and sending agency to coordinate times, places, equipment transportation, and lengths of service.
3. Liaison Officer: A Liaison Officer from the aiding State shall be provided when multiple crews are requested, i.e., two tractor units - one liaison officer; 6 tractor units- 2 liaison officers.
4. Interstate Equipment Travel Restrictions: The Coordinator will work with individual States to provide appropriate clearances.
5. Information:
 - a. Information regarding Compact crews within a receiving State will be passed through the Coordinator to the sending State.
 - b. Information regarding the news media will be handled by each State.
 - c. The Compact Coordinator shall be prepared to provide information on general Compact activities.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

6. Food and sleeping Facilities: These will be provided by the receiving State; unless other arrangements are made in advance.
7. Supervision: On-the-fire supervision work will usually be provided by the receiving State. However, if the State does not have sufficient qualified overhead then appropriate overhead should be requested through the Compact.
8. Pay Rates: Personnel and equipment reimbursements will be at the rates provided in Appendix H.
9. The sending State will supply sufficient communications equipment for its crews to interface with the receiving State. Additional communication support should be ordered through Coordinator.

102.3 DEMOBILIZATION

1. Release priority: Out of State personnel and equipment shall be released as soon as fire conditions warrant. The Coordinator shall be notified when release is imminent and when accomplished. It shall be the Coordinator's responsibility to notify the States when their crews are released, and relay their E.T.A. at headquarters.
2. Equipment Return: The receiving State is responsible for repair or reimbursement for damaged or lost tools and equipment. Records of hours and/or miles used must be returned with equipment so that servicing or overhaul can be arranged. The sending State should send mechanically sound equipment. The receiving State should make notations of any equipment deficiency upon arrival.
3. Reimbursement Vouchers: The sending State will send the receiving State reimbursement vouchers within 30 days after return of personnel and/or equipment.
4. Narrative Report: Both the sending and receiving States will send a written critique on all phases of their part of the mutual aid operation to the Compact Coordinator. This report will serve as supporting material for incident reviews.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

103 FIRE EMERGENCIES

103.1 OUTSIDE COMPACT AREA

Each State will maintain internal Cooperative Agreements dealing with agency fire assistance.

103.2 BETWEEN COMPACTS

The Southeastern States Compact Coordinator will coordinate with his or her counterpart in other compacts if assistance is being requested or if resources are being sent to a Southern Area Compact. Normal dispatch procedures will be followed in handling resources.

104 COMPACT INCIDENT REVIEW

104.1 PURPOSE

When significant mutual aid is requested and used, an Incident Review shall be made to determine efficiency and effectiveness of the Compact action.

104.2 TIME AND PLACE

The Compact Coordinator shall arrange for the Incident Review to meet at a convenient time and at a suitable location in the aided State.

104.3 REVIEW TEAM MAKE-UP

1. State Forester and Fire Chief of receiving State.
2. Fire chief of sending State or States.
3. Representative of U.S. Forest Service, Fire and Aviation in the receiving State.
4. Fire Chief and Staff from other Compact States, as desired.
5. Compact Coordinator.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

104.4 SUPPORTING INFORMATION

Suppression personnel involved in the incident may be asked to participate in the Review. Any supporting material such as maps, time records, weather records, and critiques should be available for the Review.

104.5 INCIDENT REPORT

The Compact Coordinator shall prepare a written report of all findings including recommendations for future operations. This report will be sent to all member States and U.S. Forest Service, Fire and Aviation.

104.6 STANDARD DISPATCHES

Under the terms of a compact mobilization, the following will be considered “standard dispatches”:

- Tractor Strike Team
 - 5 Tractor/Plows w/2 operators each and communications
 - 1 Strike Team Leader w/vehicle and communications
- Engine Strike Teams
 - 5 engines, any type, w/2 operators each and communications
 - 1 Strike Team Leader w/vehicle and communications

105 SHARED RESOURCES

105.1 RESOURCES

These resources are to be tracked by Federal and State Dispatchers.

105.1.1 Aviation

- Helicopter Buckets
- Airtankers
- Helicopters
- Air Transport

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

- Retardant Mixing Facilities - portable Long and Short Term
- Aerial Ignition Systems

105.1.2 PERSONNEL

- Hand Crews (20 person)
- Fire Behavior Analyst
- Air Attack Group Supervisors\
- Dispatchers
- Communications Unit Leaders
- Air Operations Branch Director
- Air Support Group Supervisor

105.1.3 SPECIALIZED WATER HANDLING EQUIPMENT

- Portable Pumps
- Irrigation Pumps/Systems
- Large Volume Pumps

105.1.4 TRACTOR-PLOW UNITS

- High Flotation by size class

105.1.5 ALL TERRAIN VEHICLES

- Water Handling
- Non-water Handling

Southern Area Interagency Mobilization Guide
Chapter 100 – Southeastern and South Central Compacts

105.1.6 KITCHENS

105.1.7 MOBILE COMMAND POSTS

105.1.8 MAFFS

105.1.9 PORTABLE BRIDGES

106 INITIAL BRIEFING FOR STATE CREWS

The sending State will assure:

1. That all crews are qualified to fill job for which dispatched.
2. That crews come equipped with hard hats, gloves, fire shirts and pants, goggles, fire shelters and any other safety equipment needed for the job.

The Compact Coordinator will:

1. Ensure that receiving State brief out-of-State crews upon entering the State and that Compact policy is followed.

The receiving State will hold a briefing on:

1. Fire situation and expected behavior.
2. Assignment area
 - a. Terrain
 - b. Fuels
 - c. Supervision
3. Location of housing, feeding
4. Logistical support - fuel, grease, repair, etc.
5. Fire headquarters

6. Social customs
7. Local maps
8. Resource values at risk
9. Safety items
10. State laws, traffic, regulations, and restrictions
11. State policy
12. Other pertinent information

107 COMPACT ACTIVATION CHECKLIST

1. Determine need for resources.
2. Place resource order with Compact Coordinator (USFS) Atlanta, Georgia, for another State's resources.
3. Verbal and written notification of compact activation to the coordinator is preferred for record keeping.
4. Compact Coordinator will notify the appropriate Compact Chair.
5. Compact Coordinator will notify the adjoining Compact Chair.
6. Compact Coordinator will place resource orders with States stating "This is a Compact Order" (Normally following the closest resource concept).
7. Compact Coordinator will pass information on resources assigned to ordering State.
8. Demob will follow the normal demob process; release information, ETD's and ETA's on the same resource order form used in the mobilization.
9. The Compact Coordinator will update the Compact Chair, as needed, of the situation and actions taken.

Southern Area Interagency Mobilization Guide

Chapter 100 – Southeastern and South Central Compacts

10. Once the fire emergency has subsided and all compact resources have returned to their home State, the requesting State should notify the compact coordinator that the compact has been de-activated. Verbal and written notification is preferred.

APPENDIX H (Continued)

SOUTH CAROLINA FORESTRY COMMISSION

EQUIPMENT

Type:	Helicopter Buckets (2 ea)
Make:	Bambi
Special Equipment:	780 Gallon Capacity
Special Moving Requirements:	
Rate w/o Operator:	TBD
Wet: (with fuel): Dry: (receiving State supply fuel)	

Type:	Fire Track M-548
Make:	
Special Equipment:	1000 gallon pumper unit
Special Moving Requirements:	Low Boy Transport
Rate w/o Operator:	\$50.00 per hour (2 hours/day minimum)
Wet (with fuel); Dry: (receiving State supply fuel)	Transport \$2.00 per mile wet
Per Diem Rate for operator:	Actual Expenses/Operator's Salary

Southern Area Interagency Mobilization Guide
Chapter 100 – Southeastern and South Central Compacts
