

Forest Supervisor's Certification

I have evaluated the monitoring results and recommendations in this report and have directed that the Action Plan developed to respond to these recommendations be implemented according to the time frames indicated, unless new information or changed resource conditions warrant otherwise. I have considered funding requirements in the budget necessary to implement these actions.

The 1996 Revised Forest Land and Resource Management Plan for the National Forests and Grasslands in Texas (the *Plan*) is sufficient to guide forest management for FY 2004, unless ongoing monitoring and evaluation identifies further need for change.

Any amendments or revisions to the *Plan* will be made using the appropriate National Environmental Policy Act (NEPA) procedures.
