

The Shawnee Quarterly

The Shawnee National Forest Newsletter with the
Schedule of Proposed Actions
April 2009

“The Shawnee Quarterly” is the Shawnee National Forest’s National Environmental Policy Act (NEPA) newsletter. The Quarterly is published four times a year: January, April, July, and October. It provides planning information on the management and use of the Forest and includes a copy of the Forest’s Schedule of Proposed Actions.

The Schedule of Proposed Actions lists actions proposed or in progress that require consideration under NEPA prior to implementation. The purpose of the Schedule of Proposed Actions is to provide early, informal notice of proposed projects so that you can be aware of Forest activities, indicate your interest in specific projects, and be involved early in the environmental analysis and documentation process. The schedule also provides information associated with the status of environmental analysis or planning of ongoing projects.

New projects are listed with the ***NEW LISTING*** identifier in the title box on the Schedule of Proposed Actions. You can become part of the decision-making process by commenting on all projects that interest you. Projects are sorted in tables by nationwide projects, the Supervisor’s Office (for Forest-wide projects), or by the Ranger District where the action is proposed. The name of a contact is provided with each project and comments or questions should be directed to this contact person.

SCOPING FOR PROJECTS EXPECTED TO BE CATEGORICALLY EXCLUDED:

Projects listed in the Schedule of Proposed Actions followed by “**CE**” are expected to be categorically excluded from extensive analysis under NEPA. In an effort to conserve resources by avoiding duplicative mass-

mailings, and commensurate with their expected scope and intensity, the Forest announces scoping for these projects in this Quarterly newsletter. Sufficient details of proposals are provided to enable comments on the projects. If you wish to receive further information on any project, please contact the individual listed.

Comments will be accepted for three weeks following publication of the Quarterly.

Some categorically excluded decisions are subject to notice, comment and appeal under the appeal regulations (36 CFR 215). These types of projects, mostly prescribed burning, will be scoped separately and included in the Schedule of Proposed Actions.

New projects listed in this month’s Schedule of Proposed Actions that are expected to be categorically excluded include:

Cedar Lake Ranch - Equestrian Outfitter. We propose to issue a special-use permit to the Cedar Lake Ranch for equestrian outfitting. Activities would be restricted to a permitted trail system near Trigg Tower and designated trails in the Trails Designation project area.

Rose o’ Sharon Boarding Stable Equestrian Outfitter and Guide. We propose to issue a special-use permit to the Rose O Sharon Boarding Stable for equestrian outfitting and guiding. Activities would be restricted to a permitted trail system near Cedar Lake, south of Carbondale.

Management Note: Many of our routine projects like trail maintenance and recreation site maintenance do not require a decision memo and do not require that the Forest maintain a NEPA file. These types of projects will continue and some new projects could be announced in this Quarterly Newsletter but will no longer appear in the Schedule of Proposed Actions.

Johnson Creek Campground Electrification and Shower Construction. Extend existing electrical service to individual sites in the group campground and construct a shower house in the group campground. Contact Ronald Moore, 618-833-8576, ronaldmoore@fs.fed.us

PRIVACY OF YOUR COMMENTS

Comments received in response to solicitation as part of the NEPA process, including names and addresses of those who comment, will be considered part of the public record of a proposed action and will be available for public inspection. Pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act permits such confidentiality.

How you can become involved: Read through the list of proposed projects. To comment on a project or be placed on the project mailing list, call or write the contact person. You may also comment during the scoping or comment periods on environmental assessments (EA) or environmental impact statements (EIS). Thank you for reviewing this list of projects and planned or recent decisions. We appreciate your interest in the management of the Shawnee National Forest.
