

After The Storm

A Progress Report from the Superior National Forest
July 2002

Acknowledgments

The Superior National Forest extends sincere gratitude and appreciation to:

- The numerous area residents, volunteers, law enforcement officers, Forest Cooperators, agencies, groups, tribes, and Forest Service staff who helped during search and rescue operations and continued to work to reopen roads, trails, portages, and campsites after the dust settled
- Forest Service staff who have spent much time away from their families to allow the Forest to continue to offer its services
- Counties, State agencies, Congressional members, and media for their support during our recovery work

Thank you for your caring and dedication.

Jim Sanders
Forest Supervisor
