

News From *The White Mountain National Forest*

For Immediate Release: August 27, 2010

Contact: O'Dell Tucker (603) 466-2713

The Bog Dam Loop Road

The White Mountain National Forest will begin replacing three (3) culverts on the Bog Dam Loop Road the first week of September 2010. The construction project will last about 4-6 weeks. During this time, the road will not act as a loop road to the York Pond Road. The Forest Service will have signs at both entrances of the Bog Dam Loop Road indicating an estimated mileage you will be able to drive until encountering the construction project. Check these signs to make sure you can still reach your planned destination.

For more information, please contact the Androscoggin Ranger District at (603) 466-2713 or visit our website: www.fs.fed.us/r9/white.

The USDA Forest Service is an equal opportunity provider and employer.
