Date: November 8, 2007

Dear Stakeholder:

I am pleased to provide you a copy of the revised Environmental Assessment (EA) for the update of the river management plan for the Pere Marquette National Scenic River. Five alternatives were evaluated in detail in this October 2007 EA. Alternatives 1–4 are the same as presented in the April 2007 EA. In addition, we have added a fifth alternative. The theme of Alternative 5 is providing a balance between recreation use and demands and the protection and enhancement of river resources while addressing the issues raised by the public, other agencies, and the Tribes during the 30-day comment period on the April 2007 Environmental Assessment. I have selected Alternative 5 as the preferred alternative at this time.

Like the April 2007 EA, the revised EA is strategic and alternatives analyzed place an emphasis on the protection and enhancement of the Pere Marquette River's Outstandingly Remarkable Values (ORVs), water quality, and free-flowing conditions as required by the National Wild and Scenic Rivers Act (P.L. 90-542). The decision to be made by this EA only applies to National Forest System lands within the river corridor and does not authorize implementation of any ground-disturbing actions. Decisions on site-specific, ground-disturbing actions would be made through subsequent environmental analyses and public involvement.

Public participation is an important part of the analysis and, as such, I encourage you to take a look at the enclosed document. To ensure that I have an opportunity to consider your comments before I make a final decision they must be postmarked or received within 30 days beginning the day after publication of the legal notice in the *Cadillac News*. When the comment period would end on a Saturday, Sunday, or Federal holiday comments will be accepted until the end of the next Federal working day. To have standing and for your comments to be used in the development of the Comprehensive River Management Plan your comments need to be received during the 30-day comment period.

Although I am the Decision Maker for this project, I would like you to send your comments to: Les Russell, District Ranger, at P.O. Box Drawer D, Baldwin, MI 49304. Office hours, for those who wish to hand deliver or provide oral comments, are 8:00 a.m. to 4:30 p.m., Monday-Friday (except Federal holidays). Oral comments must be provided at the above office or by telephone at 231-745-4631 during those hours. Alternatively, comments may be submitted by facsimile at 231-745-2345, or email to comments-eastern-huron-manistee-baldwin-white-cloud@fs.fed.us (please put "Comments on Pere Marquette EA" on the subject line).

If you wish to reference scientific literature in your comment letter I request that you send a copy of the reference you have cited and include rationale as to how you feel it is pertinent to the specific project at hand. This will allow me to fully evaluate your comments; if I do not receive a copy of the literature I may not be able to utilize it in making my decision.

The alternatives presented in this revised EA reflect, to the best of our ability, consideration of the comments, issues, and concerns raised by the public through letters, phone conversations, and e-mails we received on the April 2007 EA. In addition, we have consulted with and heard from local and state governments, and local tribes on the issues addressed in this document. The final decision on this project will be subject to appeal pursuant to 36 CFR 217.3. Copies of the decision will be mailed to those who request it and those who comment on the project. Comments that are received on this proposal are part of the public record and, therefore, are available for public inspection upon request.

For additional information visit our website at:
