

The Ottawa National Forest is involved in many programs and activities. As in the past, this issue of the Ottawa Quarterly is a listing of proposed resource management projects for which we have a specific proposal and are in the process of analyzing as directed by the National Environmental Policy Act (NEPA).

The Forest Service decision-making process provides opportunities for interested parties to give their ideas and opinions about resource management. This input is important in helping us identify resource needs, which will shape the alternatives evaluated and lead to the formation of a decision. There are several points in the planning process during which you can be the most helpful, but exact steps and timing may vary depending on the type and complexity of the project. The section titled "The Project Planning Process and How You Can Be Involved" describes these steps and identifies what you can do to be involved. It is important for you to understand this process so that you may receive the environmental documents in which you are interested.

Included in this list are those projects for which a Decision Memo, Decision Notice, or Record of Decision is anticipated. However, this list may not be all-inclusive. Some projects may come up after publication and require our immediate attention. As a result, we may complete the decision document before the next edition.

Furthermore, if you have received previous editions of this list you will notice that some projects do not appear anymore. That is be-

O.T.T.A.W.A
NATIONAL FOREST

cause we have finished the analysis, made the decision and the appeal period (if applicable) has ended; or, in other cases we have removed projects from the list because we were unable to pursue them for various reasons such as a conflict with other forest priorities. If these projects are re-initiated in the future then they will again be added to the Quarterly Report. Please call the person listed as the "contact" for a project anytime you have a question.

If you have questions about this document, or NEPA projects on the Ottawa in general, please feel free to contact Karen Dunlap, Forest Environmental Coordinator, at (906) 932-1330x345 or kdunlap@fs.fed.us.

Documents are filed by project name.

Definition of Terms

Appeal - is the written document filed with an Appeal Deciding Officer by one who objects to a decision.

Appeal Period - The 45 calendar-day period following publication of a decision document during which an appeal may be filed.

Decision Memo (DM) - A written record of the responsible official's decision to implement an action that has been categorically excluded from documentation in an environmental impact statement or an environmental assessment.

Decision Notice (DN) - A written record of the responsible official's decision based on an Environmental Assessment and a finding of no significant impact.

Environmental Assessment (EA) - A document which presents issues and concerns important to a project, and alternate means of accomplishing a project, and analysis of potential environmental effects of each of those alternatives. This information is used to help determine whether to prepare an environmental impact statement or a finding of no significant impact.

Environmental Impact Statement (EIS) - A document which presents issues and concerns important to a project, and alternate means of accomplishing a project, and analysis of potential significant environmental effects of each of those alternatives.

Finding of No Significant Impact (FONSI) - A document prepared by a federal agency presenting the reasons why an action will not have a significant effect on the human environment and for which an Environmental Impact Statement will not be prepared.

Management Area (MA) – described in the Forest Plan — an area delineated on a map showing the location where a management prescription applies.

Notice of Intent (NOI) - A notice that an Environmental Impact Statement will be prepared and considered.

Proposed Action - A site-specific proposal made by the Forest Service to authorize, recommend, or implement an action on National Forest System lands.

Record of Decision (ROD) - A written record of the responsible official's decision based on an Environmental Impact Statement.

Scoping – A process to help determine any potential significant issues that may be related to the proposed action and subsequently addressed in the environmental documents.

The Project Planning Process and How You Can Be Involved

ANALYSIS STEP	PARTICIPATION OPTIONS
Identify need for project	Propose a project to the Forest Service.
Develop site specific detailed project proposal	Develop project proposal.
Scoping – solicit public comment on the site-specific proposal.	Provide the site-specific comments on proposal – suggest issues, alternatives or mitigation measures.
Develop alternatives based on the issues raised during scoping. One alternative is to stay with the status quo (No Action).	In comments on the proposal, suggest variations to the original proposal – or other potential alternatives.
Initiate public comment process (30-day comment period for projects documented in an EA and a minimum 45-day comment period for projects documented in an EIS). See 36 CFR 215.5.	Read EA/DEIS. Provide comments on the environmental analysis. See 36 CFR 215.6(a)(3) for a description of what information to provide.
Notice of decision will be published in the newspaper of record. See 36 CFR 215.7.	Review decision.
Appeal period will be open for 45 days following legal notice of decision in the newspaper unless no one expressed interest (or only positive comments were received) and there is no change from the proposed action. (36 CFR 215.7, 215.11, 215.12)	Exercise option to appeal. File Notice of Appeal (see section 36 CFR 215.14 for Appeal Content requirements) NOTE: Only those who submitted comments, or otherwise expressed interest in a project, in writing or orally during the 30-day EA comment period or EIS comment period may appeal. (36 CFR 215.13)
Implement the project.(Subject to timing requirements of 36 CFR 215.9)	Contribute labor, equipment or funding.
Monitor & evaluate project results	Provide feedback on the project.
