Dear Planning Participant,

The Ammonoosuc/Pemigewasset Ranger District of the White Mountain National Forest is in the process of finalizing the Environmental Assessment (EA) for the Tintah Project. Enclosed for your comment is the Information for Notice and 30-Day Comment on Proposed Activities for the Tintah Project. This information document examines the alternatives considered for this project, provides the mitigation measures to limit potential effects, and summarizes the analysis of potential environmental effects associated with each alternative considered in detail.

I am requesting your comments now, because I believe we are at a point in our analysis where your input will be the most useful and meaningful. As you review the **Information for 30-Day Comment**, please consider the alternatives, the analysis of environmental effects, and the mitigation measures. Your comments must be *timely and substantive* to assure that I have the opportunity to consider them before we complete the analysis and I make a decision on this project.

This is the formal 30-day public comment period. To attain standing to appeal any decision I make on this project proposal, you must submit timely and substantive comments regarding the Information for 30-Day Comment during this period. ***There will be no other public comment period for this project proposal.*** Instructions for submitting your comments and establishing standing to appeal my decision are included in the attachment to this letter (How to Comment on the Tintah Project EA). Please review these instructions carefully.

The alternatives propose the following range of management activities:

- Timber harvest of up to 3.5 million board feet on up to 476 stand acres of federal land, utilizing both even-aged and uneven-aged management techniques;
- Wildlife habitat improvement for Grouse and Woodcock (10 Acres);
- Sugarloaf and Mt. Hale Trailhead parking improvement;
- Universal access trail construction (1,500 ft); and
- Perform maintenance on up to 8.5 miles of existing Forest Service roads.

Please be aware that your name, address and comments will become part of the public record and may be available for public inspection. Thank you for taking the time to participate in this process. Your comments and involvement are important to me. If you have any questions please contact Dave Batchelder at 603-536-1315. I look forward to hearing from you.

This information document will be available on the White Mountain National Forest web site ([www.fs.fed.us/r9/white](http://www.fs.fed.us/r9/white)).

Also included as an attachment to this letter is Where in the Forest Service NEPA Process is this

Project?, which provides an outline of the NEPA process and explains where we are in the process at this time.

Sincerely,

/s/ John J. Serfass

## **Where in the Forest Service NEPA Process is this Project?**

NEPA is the Forest Service decision-making process. An acronym for the National Environmental Policy Act of 1969, NEPA provides opportunities for interested parties to give their ideas and opinions about resource management. This input is important in helping us identify resource needs, which will shape the alternatives evaluated and lead to the formation of a decision.

This form shows the steps of the NEPA process, and where the attached proposal is in that process.

### \_\_\_\_\_ **Step One - Need for a Project**

The Forest Service or some other entity may identify the need for a project.  
*YOU* may bring the need for a project to the attention of the Forest Service.

### \_\_\_\_\_ **Step Two - Develop Project Proposal**

The Forest Service or a project proponent develops detailed, site-specific proposal  
*YOU* may be proponent who develops proposal or *YOU* can share input and ideas

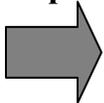

### \_\_\_\_\_ **Step Three - Scoping (Public Input)**

The Forest Service solicits public input on the site-specific proposal to define the scope of environmental analysis and range of alternatives to be considered  
*YOU* provide site-specific input: suggest issues, alternatives, mitigation measures

### \_\_\_\_\_ **Step Four - Develop Reasonable Range of Alternatives**

If proposal fits categorical exclusion: Forest Service makes & documents decision  
If scoping determines need for EA or EIS: Forest Service develops alternatives  
*YOU* suggest alternatives to the proposed action during the scoping process

### **Step Five – Information for 30-Day Formal Public Comment Period**

Forest Service performs analysis of environmental effects, identifies preferred alternative, and solicits formal public comment (30-Day Comment Period)  
*YOU* provide timely & substantive comments on the analysis during Comment Period

### \_\_\_\_\_ **Step Six – Environmental Analysis & Decision**

Forest Service finalizes the Environmental Assessment and makes decision to implement one of the alternatives

*YOU* can review decision; you can appeal if you disagree and you have “standing”

*Standing: You provided substantive comments during formal period (Step*

5)

### \_\_\_\_\_ **Step Seven - Appeal**

Forest Service allows public 45 days following legal notice of decision to appeal  
*YOU* may file formal Notice of Appeal

### \_\_\_\_\_ **Step Eight - Implementation**

Forest Service implements the project  
*YOU* may contribute labor, equipment or funding to implement the project

### \_\_\_\_\_ **Step Nine - Monitor and Evaluate**

Forest Service monitors and evaluates project results  
*YOU* provide feedback on the project to the Forest Service
