

# Collaborative Forest Landscape Restoration and High Priority Restoration Project Boundaries Overlaid with High Priority Watersheds

**Legend**

- Rivers
- High Priority Watersheds - Watershed Condition Framework
- Lakes
- State Boundaries
- CFLRP/HPRP Project Boundaries
- National Forest

**Description**

This map shows the boundaries of the Collaborative Forest Landscape Restoration (CFLR) projects and other High Priority Restoration Projects (HPRP) funded by the U.S. Forest Service (USFS) in Fiscal Year (FY) 2012. These boundaries are overlaid with the High Priority Watersheds identified by the USFS using the Watershed Condition Framework in FY2012.

Many of the CFLR/HPRP project landscapes also contain high priority watersheds, highlighting the synergistic priorities between these programs.
