

ATTACHMENT 3. Name and location of ESTABLISHED DMAs to be monitored by PIBO EM crew in 2011 and 2012. Sites with coordinates listed have been previously sampled by PIBO EM and site info is available for these sites at:

http://fswebgsc.gsc.wo.fs.fed.us/services/data_management/PIBO/. Sites without coordinates are sites where information on new DMAS has been provided by the field units but have not been sampled by PIBO EM. Sites without coordinates were established last year for a monitoring visit this year, so the PIBO group has not assembled map and site description information yet.

PIBO watersheds (HUCs) WITHOUT ESTABLISHED DMAs to be monitored by PIBO EM crew in 2011 and 2012. New sites should be added within the listed HUCs but do not necessarily need to fall on the listed stream. HUC boundaries can be found at http://fswebgsc.gsc.wo.fs.fed.us/services/data_management/PIBO/
