1200 Pennsylvania Avenue, N.W. Mail Stop 1101A
Washington, DC 20460

Dear Ms. Jackson,

The Forest Service is pleased to submit the first completed pilot inventories for base year reporting of greenhouse gas emissions under the Environmental Protection Agency Climate Leaders Program. We have collected valuable information on our emissions in two large scale business units.

For your convenience, the enclosed information can also be found at <http://www.fs.fed.us/sustainableoperations/climate-change-greenhouse-gas-inventories.shtml>. We look forward to hearing back from you on our data and process so we can continue to work towards building an Agency-wide approach to reduce our environmental footprint.

Sincerely,

/s/ Hank Kashdan (for)
THOMAS L. TIDWELL
