Data Sources:

- Selected Forest Service data, nature & scenic rangelands, BLM, etc. contributed
- CO: NRCS, USDI, USFS, BLM, USFWS, DOI, State, Tribal, Other
- NE: NRCS, USDI, USFS, BLM, USFWS, DOI, State, Tribal, Other
- KS: NRCS, USDI, USFS, BLM, USFWS, DOI, State, Tribal, Other
- SD: NRCS, USDI, USFS, BLM, USFWS, DOI, State, Tribal, Other
- WY: NRCS, USDI, USFS, BLM, USFWS, DOI, State, Tribal, Other

Additional Information:

- The BLM issued grazing bills and allowed domestic sheep or goat use during the 2009 grazing fee year (3/1/2009-3/28/2010). A bill to graze livestock or to cross public land with livestock (i.e., trailing) is issued on an annual basis.

- Under term grazing authorizations (term permits, leases or exchange-of-fee authorizations) current as of 11/19/2010, the BLM authorized domestic sheep or goat use within all or part of the allotment. Data do not include crossing public land with livestock (i.e., trailing).

- FS: Domestic Grazing Allotments: Sheep/Goats Present (active) - Data Sources: The Forest Service (FS) and Bureau of Land Management (BLM) make no expressed or implied warranty, including warranty of merchantability and fitness, with respect to the data or their appropriateness for any user's purposes. The Forest Service (FS) and Bureau of Land Management (BLM) reserve the right to correct, update, modify, or replace, GIS products based on new inventories, new or revised information, change, function, or capabilities of the data or their appropriateness for any user's purposes, while being created or revised, etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. GIS data and products, which they were created, may yield inaccurate or misleading results. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accuracy only at certain scales, based on modeling or interpretation, inaccurate while being created or present, etc., using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results.
