

4. Periodically review the Annual Procurement Forecast database

The U.S. Department of Agriculture annually publishes its current and planned projects in the Annual Procurement Forecast. Every business or interested individual can view the planned projects at the USDA website and then call a Forest Service contact person. Visit the website at <http://pforecast.net/index.html>. Click the USDA Annual Procurement Forecast and then select FS as the sub-agency.

5. Make your capabilities known

Contact program and procurement offices where the work relates to the product or service your company offers. Prepare capability statements that clearly and comprehensively define your company's special skills, experiences, prior government contracts, references, resumes, etc.

For further information please contact the Office of Small and Disadvantaged Business Utilization (OSDBU) Representatives:

Sustainable Acquisition

USDA will provide a procurement preference for recycled content, ENERGY STAR®-qualified, Federal Energy Management Program (FEMP)-designated, low standby power, bio based, environmentally preferable, Electronic Product Environmental Assessment Tool (EPEAT)-registered, water efficient, non-ozone depleting, and non-toxic or less toxic products. This preference shall be established in all USDA contracts as appropriate. Visit the following website: www.greening.usda.gov

Thanks to the Southern Region and the WO/AQM Procurement & Policy Branch for their assistance in developing the information for this brochure.

Small Business Program Sustainable Acquisition Processes with the Forest Service

Fiscal Year 2016

The US Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

For agency wide sustainability small business support, please contact Cele Aguirre-Bravo at caguirrebravo@fs.fed.us or (703) 605-5144.

What is the Forest Service?

The Forest Service is a federal agency in the U.S. Department of Agriculture that manages public lands in national forests and grasslands. The Forest Service is also the largest forestry research organization in the world, and it provides technical and financial assistance to state and private forestry. Visit us at www.fs.fed.us.

What major products and services does the Forest Service purchase from vendors and contractors?

- Natural resource services and conservation services
- Construction of structures and facilities
- Maintenance, repair or alteration of real property (incl. restoration of roads and bridges)
- Lease or rental of facilities
- Housekeeping services
- Transportation and charter services
- Professional, management and administrative support services
- Lease or rental of equipment
- Special studies and analyses
- A&E services
- Fire and aviation support services
- Information technology

How does the Forest Service acquire products and services?

The Forest Service employs a variety of procedures when acquiring products and services. These procedures are governed by the Federal Acquisition Regulation (FAR), the USDA Agriculture Acquisition Regulation (AGAR), and the Forest Service Acquisition Regulation (FSAR). The FAR is available on the Internet at www.arnet.gov/far/.

Micro-purchases by non-procurement personnel

Within the Forest Service, micro-purchases (procurements of \$3,500 or less for supplies, \$2,500 or less for services, and \$2,000 or less for construction) are generally purchased by authorized personnel with a government-wide commercial purchase card (VISA).

Ability One

The Ability One program is a mandatory source program implemented through 41 CFR Chapter 51 and FAR Subpart 8.7. The federal government purchases products and services provided by a national network of more than 500 community-based nonprofit agencies that employ people who are blind or have other severe disabilities.

GSA Advantage!®

The Forest Service fills many of its requirements for commonly used items through GSA Advantage!® (www.gsadvantage.gov), a General Services Administration (GSA) on-line system from which GSA stock items and Federal Supply Schedule (FSS) products and services may be ordered.

GSA Federal Supply Schedule and other government-wide contracts (FAR Part 8)

One of the primary methods for acquiring goods and services not available through GSA Advantage!® is by ordering from vendors that have GSA Federal Supply Schedule (FSS) contracts, or that have indefinite delivery type contracts issued by agencies, which allows other procurement offices to issue orders against the contracts.

Simplified acquisition procedures (FAR Part 13)

For requirements estimated to cost more than the micro purchase threshold but not more than \$150,000, procurement offices generally use simplified acquisition procedures. Competition to the maximum extent practicable is required. Three sources generally meets this requirement. In general, acquisitions in this dollar range are set aside for the exclusive participation of small business concerns unless there is a reason why this is not feasible.

Notices of business opportunities over \$25,000 are posted on the Federal Business Opportunities (FedBizOpps) web site at www.fedbizopps.gov.

Sealed bidding and negotiated procedures

For acquisitions estimated to exceed \$150,000, sealed bidding or negotiated procedures are used. These acquisitions must (with limited exceptions) be competed using procedures that provide for full and open competition, which means that all responsible sources are permitted to compete.

Sealed bidding (FAR Part 14)

Under sealed bidding procedures, an Invitation for Bids (IFB) is issued. Bids are publicly opened, evaluated and contract award is made to the low responsible bidder whose bid, conforming to the IFB, is the most advantageous to the government, considering only price and the price-related factors included in the IFB.

Negotiated procedures (FAR Part 15)

Under these procedures, a Request for Proposals (RFP) is issued. Proposals received are evaluated based on the factors and sub-factors contained in the solicitation. Award may be made with or without discussions. Award is made to that offer or offering the best value to the government consider price and all factors in the solicitation.

Commercial item acquisitions (FAR Part 12)

There is a preference for the acquisition of commercial items and also established procedures intended to more closely resemble the commercial marketplace. The procedures unique to acquisition of commercial items are used in conjunction with those for simplified acquisition, sealed bidding or contracting by negotiation.

Marketing your products and services and registering your business

It is the responsibility of each individual business to market and sell its company's products or services to the Forest Service. The following information may assist you in your marketing efforts.

1. Identify your product or service

It is essential to know the Federal Supply Class or Service (FSC/SVC) codes and North American Industry Classification System (NAICS) codes for your products or services. Visit the Census Bureau website at www.census.gov.

2. Register your business

Obtain a DUNS number

The Data Universal Number System (DUNS) number is a unique nine-character identifier. To request a DUNS number call D&B at the toll free number 1-866-705-5711 or register online at <https://www.dnb.com>.

Register your Business with the System of Award Management (SAM)

You need to register your business with the federal government's SAM, the primary database of vendors doing business with the federal government. Federal Acquisition regulations (FAR) require all prospective vendors to be registered in SAM prior to the award of a contract, basic agreement, basic ordering agreement, or blanket purchase agreement.

Using SAM you will be able to register your business size and socio-economic status while completing the required solicitation clauses and certification. SAM is also a marketing tool for business. SAM allows Government agencies and contractors to search for your company based on your ability, size, location, experience, ownership, and more. Visit SAM's website at <https://www.sam.gov/portal/SAM/>.

3. Keep abreast of current Forest Service procurement opportunities

The Federal Business Opportunities (www.FedBizOpps.gov) is the major source to learn of federal requirements. It lists contract opportunities, sub-contracting leads, contract awards and other business opportunities over \$25,000.
