

Jobs and Income

Economic Contributions in 2016

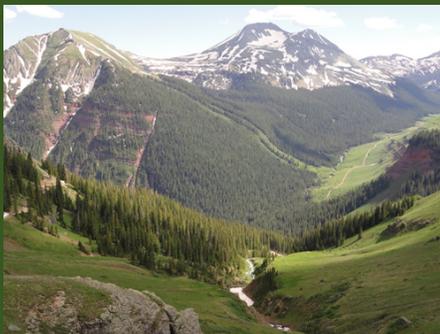

At A Glance

San Juan National Forest

In 2016, the San Juan National Forest supported:

- An estimated **2,550 jobs** (annual average of part time, full time, temporary and seasonal), and
- Around **\$84,304,000** of **labor income** in local communities.

How do National Forests and Grasslands Contribute to Economies?

National Forests and Grasslands provide multiple benefits to the American people and to local communities. They provide clean air and water, preserve cultural resources, and conserve lands for the enjoyment of present and future generations.

They also support local economies through recreation, timber, energy, minerals, and livestock grazing. In addition, counties with national forests or grasslands receive funds to support schools, road maintenance, and stewardship projects. The Forest Service also invests in such things as the construction and maintenance of infrastructure, environmental restoration, and forest health. In 2016, the sum of these activities on the San Juan National Forest supported approximately 2,550 local jobs and \$84,304,000 in local labor income.

Why Report Jobs and Income?

Residents and local government officials in surrounding communities have interest in how management of the National Forests and Grasslands affects local economies.

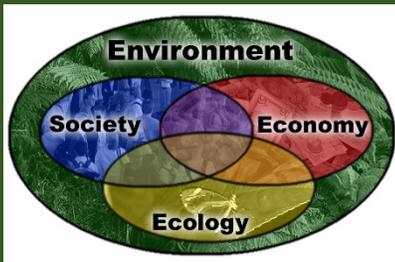

Resource Management Outputs from Forest Service Lands

National Forests and Grasslands are managed for multiple uses. Table 1 shows the Program outputs which were used to estimate the tie between management actions and economic activity in communities around the San Juan National Forest.

Table 1: Forest Service Resource Outputs by Program for the San Juan National Forest during 2016 (for data sources, see page 8).

Program	Activity	Units of Measure	Output in 2016
Recreation	Wildlife and Fish - Locals	Visits	79,645
		Expenditures (Thousands of \$2016)	\$1,705
	Non-residents	Visits	21,171
		Expenditures (Thousands of \$2016)	\$2,622
	Downhill ski/snowboarding - Locals	Visits	163,440
		Expenditures (Thousands of \$2016)	\$5,917
	Non-residents	Visits	108,960
		Expenditures (Thousands of \$2016)	\$23,643
	All Other Rec Activities - Locals	Visits	653,281
		Expenditures (Thousands of \$2016)	\$8,816
	Non-residents	Visits	293,503
		Expenditures (Thousands of \$2016)	\$55,283
Grazing	Cattle, Horses, Sheep, Goats	AUMs	102,746
Timber	Sawtimber	CCF	2,059
	Fuelwood	CCF	9,325
	Pulp, Poles, All Other	CCF	3,107
Value of Minerals & Energy Produced	Energy (coal, oil, gas, geothermal)	(Thousands of \$2016)	\$62,403
	Minerals	(Thousands of \$2016)	\$2
Payments to States/Counties	25% fund, Secure Rural Schools, Royalties.	(Thousands of \$2016)	\$1,347
	Payments in Lieu of [property] Taxes	(Thousands of \$2016)	\$1,953

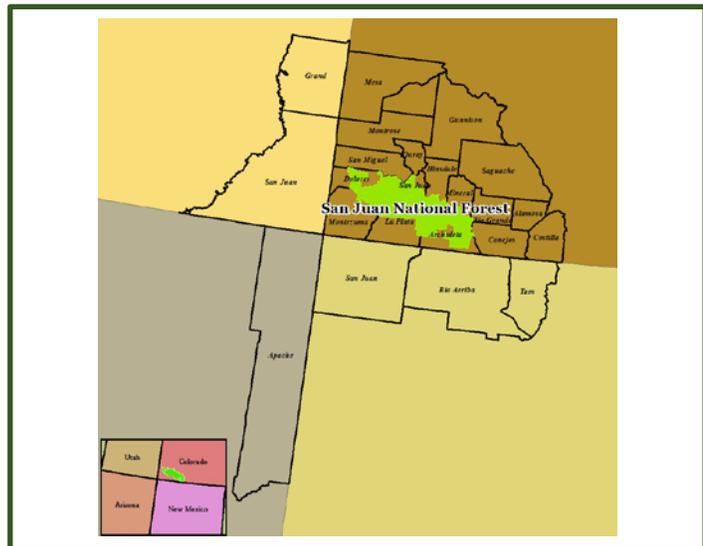

The counties selected to form a National Forest or Grassland's economic area of influence are chosen based on where FS management decisions have a direct effect on economic activity. This group of counties is also referred to as the "study area" or "impact area." The contributions of natural resource management on the National Forests and Grasslands ripple through the local economy, supporting jobs and income in many different sectors of the economy.

The values presented in this report are the best estimates to date, however they are subject to change as new data become available. The estimates for 2016 were last revised in September, 2018.

Economic Area of Influence

Economic areas of influence oftentimes differ by the resource under investigation, surrounding geography, and overall analysis objectives. The estimates in this report are generated for the area around the San Juan National Forest where direct Forest Service related expenditures occur. Other objectives, i.e. for forest planning, NEPA project analysis, etc. often focus on a different geography. The map below shows where Forest Service related direct expenditures occur, including: recreation and wildlife visitor spending, the location of grazing permit holders, the location of logging and restoration firms, mills processing FS wood products, the counties receiving returns to states funds and payments in lieu of taxes, the location of Forest Service budget expenditures, and the salary spending by Forest Service employees.

Note: To avoid double counting, the results for individual forests and grasslands in an area cannot simply be summed together to get meaningful regional or state contribution results because of overlapping economic areas of influence.

The presentation of data by Program (recreation, timber, etc.) provides a convenient way of displaying the economic contributions of Forest Service activities. It does not mean that the economic contributions can be fully attributed to individual program areas, nor that economic contributions can be compared across programs. Joint cost and joint production complicate programmatic comparisons. For example, an increase in timber harvest would support an increase in local economic contributions from logging and the forest products industry. However, there are associated effects such as fire mitigation, wildlife habitat restoration, recreation access, and so on that share production costs and are not individually captured in the calculation of economic contributions.

Job Contributions by Program

Jobs supported by the National Forests and Grasslands are often in small, rural communities and are therefore an important contribution to economic and social sustainability. Employment is the estimate of average annual full-time, part-time, temporary, and seasonal jobs. In 2016, the San Juan National Forest supported an estimated 2,550 jobs in the local area. Direct job contributions come from economic activity associated with a Forest Service Program. Secondary job contributions are the ripples of economic activity stimulated by the direct economic activity. Total job contributions are the sum of direct and secondary contributions.

Table 2: Direct and Total jobs supported by the San Juan National Forest in 2016.

Program	Direct Jobs (Avg Annual)	Total Jobs (Avg Annual)
Recreation by Local Visitors	180	240
Recreation by Non-Local Visitors	860	1,150
Minerals and Energy	130	230
Forest Products	50	130
Livestock Grazing	160	320
FS Resource Mgt Investments	280	400
Payments to States/Countries	60	80

The estimates for Recreation (including wildlife related), Minerals & Energy, Forest Products, and Livestock Grazing estimates include the jobs supported by these programs in the private sector. Non-local recreation visitors bring new money into the economy. Local recreationists spend money that is already counted in the economic statistics for the area so they are tracked independently.

Forest Service Resource Management Investments capture the spending of the National Forest or Grassland’s budget on such things as infrastructure construction and maintenance, ecosystem restoration, fuels treatments, salaries, etc.

The Payments to States/Countries estimates the jobs supported by local government investment in such things as roads and schools via funding from programs like the 25% Fund, Payments in Lieu of Taxes and minerals royalties.

NOTE: What is a “job”? **One “job” does not always equal one person.** The job estimates reported here represent the average annual SUM of portions of jobs - part time, full time, seasonal and temporary – that are supported by management of the San Juan National Forest.

Keeping the Focus Local

Labor Income is directly associated with local jobs and business owners. Other measures of income such as Household Income and Total Income include things like investments, rents, and transfer payments that are not tied to Forest Service management decisions so they are not reported here.

As direct and secondary contributions ripple through the economy, Labor Income is supported in a wide variety of sectors not directly affected by resource management decisions.

Labor Income Contributions by Major Program

Labor income is the value of wages, salaries and benefits for wage earners plus income to local business owners. In 2016 San Juan National Forest contributed an estimated \$84,304,000 in labor income to the local area, with 86% going to wages and benefits for local wage earners and 14% going to local business proprietors and partnerships.

Table 3: Direct and Total Labor Income supported by the San Juan National Forest in 2016.

Program	Direct Labor Income (Annual, 1,000 \$2016)	Total Labor Income (Annual, 1,000 \$2016)
Recreation by Local Visitors	\$4,245	\$6,294
Recreation by Non-Local Visitors	\$19,743	\$29,703
Minerals and Energy	\$9,083	\$13,832
Forest Products	\$2,205	\$4,530
Livestock Grazing	\$777	\$6,252
FS Resource Mgt Investments	\$15,969	\$20,108
Payments to States/Counties	\$2,771	\$3,585

Job and Labor Income Contributions by Major Economic Sector

Jobs and labor income supported by the National Forests and Grasslands are spread across many local economic sectors. Note that sectors that have the highest employment may not generate the highest labor income and vice versa. Jobs and income are important, but there is a range of other benefits from the national forests and grasslands.

Table 4: Total Jobs and Labor Income supported by the San Juan National Forest in 2016 with local economic area of influence totals for context.

Major Economic Sector	FS Supported Jobs (Avg. annual)	FS Supported Labor Income (1,000 \$2016)	Area of Influence Jobs (Avg. annual)	Area of Influence Labor Income (1,000 \$2016)
Total	2,550	\$84,304	363,399	\$14,459,199
FS Percent of Area of Influence	0.7%	0.6%		
Accommodation & Food Servs	780	\$17,041	31,106	\$647,028
Admin, Waste Mgt & Rem Servs	50	\$1,450	13,474	\$370,617
Agriculture	360	\$5,581	24,195	\$299,069
Arts, Entertainment, and Rec	150	\$2,370	10,470	\$200,096
Construction	30	\$1,239	25,920	\$1,152,627
Private Educational Services	50	\$886	4,384	\$98,433
Finance & Insurance	40	\$1,654	11,767	\$455,236
Health Care & Social Assistance	90	\$4,957	38,419	\$1,970,495
Information	20	\$641	3,786	\$144,979
Local, State, & National Gov't	270	\$16,782	60,768	\$3,476,283
Manufacturing	10	\$443	10,221	\$434,078
Mining	160	\$11,396	14,265	\$1,036,451
Mgt of Companies	10	\$437	1,781	\$73,749
Other Services	60	\$2,444	19,663	\$665,134
Prof, Scientific, & Tech Services	90	\$3,209	17,554	\$763,414
Real Estate & Rental & Leasing	70	\$1,300	18,897	\$315,598
Retail Trade	220	\$6,499	8,569	\$557,563
Transportation & Warehousing	40	\$2,948	36,320	\$1,003,227
Utilities	10	\$581	2,858	\$345,958
Wholesale Trade	40	\$2,448	8,982	\$449,167
