

innovation or the ability of U.S. enterprises to compete.

The action has also been reviewed with regard to the requirements of Pub. L. 96-354, the Regulatory Flexibility Act of 1980. Robert E. Leard, Administrator, Food and Nutrition Service has determined that it will not have a significant economic impact on a substantial number of small entities. The primary purpose of the action is to notify States that the amount of foods donated will meet the programmed level for the school year 1985. Therefore, no payment of cash in lieu of donated foods will be necessary.

Section 6(b) of the National School Lunch Act (the Act), as amended (7 U.S.C. 1755) and the regulations governing cash in lieu of donated foods (7 CFR Part 240) require the Secretary of Agriculture by May 15 of each school year to estimate the value of agricultural commodities and other foods that will be delivered to States during that school year. Under the food distribution regulations (7 CFR Part 250), these foods are used by schools participating in the National School Lunch Program. If the estimated value is less than the total level of commodity assistance authorized under Section 6(a) of the Act, the Secretary is required by June 15 of that school year to pay to each State administering agency funds equal to the difference between the value of programmed deliveries and the total level of authorized assistance for each State.

For school year 1985 the adjusted minimum national average value of donated foods or payment of cash in lieu thereof per lunch has been established under section 6(e) at 12.6 cents per lunch (49 FR 32776). In accordance with this requirement, a national entitlement of \$452,993,782 in commodities was established for school year 1985. The Secretary has determined that at least that amount was available for delivery nationally by June 30, 1985, to meet the mandated level of assistance.

Notice is hereby given, therefore, that no shortfall cash payments will be made for the school year ending June 30, 1985.

This notice contains no reporting or recordkeeping provision necessitating clearance by the Office of Management and Budget.

BILLING CODE 3410-34-1

Foreign Agricultural Service

Import Limitation; Country of Origin Quota Adjustment

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice of country of origin adjustment for certain condensed milk from Denmark.

SUMMARY: Presidential Proclamation 4708 issued December 11, 1979, amended Headnote 3(a) of Part 3 of the Appendix to the Tariff Schedules of the United States to permit the Secretary of Agriculture to make country of origin adjustments for unlicensed quotas that will not be filled by the country of origin listed opposite the quota. This notice implements such an adjustment with respect to the quota quantity assigned to Denmark for condensed milk in airtight containers.

EFFECTIVE DATE: July 5, 1985.

FOR FURTHER INFORMATION CONTACT: Phillip J. Christie, Head, Import Licensing Group, Dairy, Livestock and Poultry Division, Foreign Agricultural Service, Room 6616 South Building, Department of Agriculture, Washington, D.C. 20250 or telephone at (202) 447-5270.

SUPPLEMENTARY INFORMATION: This action has been reviewed under Executive Order 12291 and Secretary's Memorandum 1512-1 and has been determined to be "nonmajor" since it will not have any of the significant effects specified in those documents. Furthermore, to the extent, if any, that the provisions of the Regulatory Flexibility Act (5 U.S.C. 601) apply to this notice, the Administrator, Foreign Agricultural Service, hereby certifies that this notice will not have a significant economic impact on a substantial number of small entities. The adjustment of the country of origin from which the quota item specified herein may be entered does not affect the ability of importers to import this quota item, but only expands the number of countries from which the item may be imported. Also, since this action is being taken in recognition of changes in the market which have already occurred, this action will not cause any new economic impact.

An assessment of the impact of this rule on the environment was made and, based on this evaluation, this action is not a major federal action and will have no foreseeable significant effects on the quality of the human environment. Consequently, no environmental impact statement is necessary for this proposed rule.

Part 3 of the Appendix to the Tariff Schedules of the United States (TSUS) sets forth import limitations imposed on certain dairy products, including certain condensed milk. Headnote 3(a)(iii) of that Appendix allows for reallocating the quota amount of a dairy article listed in that Appendix among the countries of origin specified for a given article if it is determined that the quota amount assigned to a particular country is not likely to be entered from that country within a given calendar year. I hereby determine that it is not likely that the amount of condensed milk specified in TSUS Item 949.90 for Denmark will be entered from that country during calendar year 1985.

Notice is hereby given that the 1985 unused quota quantity for condensed milk specified in TSUS Item 949.90 for Denmark may be imported from Canada, Denmark, the Netherlands and Australia for the remainder of the 1985 quota year.

This quota quantity for TSUS Item 949.90 will revert to the original supplying country on January 1, 1986.

Issued at Washington, D.C., this 17th day of June 1985.

Richard A. Smith
Administrator.
