Missoula, MT

8E82P49—Everyday Hazmat

The Forest Service, United States Department of Agriculture (USDA), has developed this information for the guidance of its employees, its contractors, and its cooperating Federal and State agencies, and is not responsible for the interpretation or use of this information by anyone except its own employees. The use of trade, firm, or corporation names in this document is for the information and convenience of the reader, and does not constitute an endorsement by the Department of any product or service to the exclusion of others that may be suitable.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

# Acknowledgments

Special thanks to: Charles Showers, Cherie Peacock, Janis George (retired), Jim Tour (retired), Bert Lindler, Ted Cote, and Chuck Whitlock (retired) of the Missoula Technology and Development Center, USDA Forest Service; Bruce Crockett, Steve Oravetz, Bob Kirkpatrick, and Jim Stapleton, all of the Northern Region, USDA Forest Service; and Robert Steckley of the Rocky Mountain Region, USDA Forest Service.

## Special Disclaimers

The *Everyday Hazmat User's Training Guide* is intended to help USDA Forest Service employees who are responsible for using, transporting, storing, or disposing of hazardous materials. It is based on relevant laws and regulations, but it is not the law, nor is it USDA Forest Service policy. More specific laws may be in effect in certain States and localities. If the guide conflicts with any law, regulation, or policy, follow the law, regulation, or policy. All such conflicts should be brought to the attention of the engineering program leader at the Missoula Technology and Development Center (MTDC) and the user's regional environmental engineering staff.

This publication does not contain recommendations for the use of pesticides, nor does it imply that the uses discussed here have been registered. All uses of pesticides must be registered by appropriate State and/or Federal agencies before they can be recommended.

CAUTION: Pesticides can be injurious to humans, domestic animals, desirable plants, and fish or other wildlife—if they are not handled or applied properly. Use all pesticides selectively and carefully. Follow recommended practices for the disposal of surplus pesticides and pesticide containers.
