Subject Description

Target Invasive Pest:

Biological Control Agent(s):

Common and Scientific Names:

BCIFP Priorities Addressed (check all that apply)

Developing improved methods for assessing/predicting the effectiveness of candidate biological control agents.

Development of techniques and technologies for conducting post-release monitoring/assessments of biological control impacts and agent distribution.

Improved or novel utilization of biological control with other control technologies within integrated pest management.

Development of novel biological control strategies through funding of pilot projects.

Define the project being developed (e.g., what is the technology/application, goals and objectives, and who will maintain the tool if maintenance is necessary?) (250 words):

Provide background, justification, and describe project innovation if applicable (e.g., describe the management problem, impacts of the invasive species, supportive research, and any novel or unique insights) (250 words):

Methods/Approach (750 words including a timeline of activities):

A large, empty rectangular box with a thin black border, intended for the user to write the 'Methods/Approach' section of the document. The box is currently blank.

Describe stakeholder involvement in development of the proposal and application of the new technology and identify end users (e.g., how involved are land managers in the project?) (150 words):

Describe technology assistance/transfer, outreach, and the expected impacts to forest health/forest management (e.g., how will the technology be shared and how will it change current management?) (150 words):

Products/Publications/Technology transfer (e.g., provide timeline of expected project accomplishments by agreement closure) (150 words):

Year 1 Notes (If the project is being supported by additional funding sources, please describe here) (2000 characters):

* Funds allocated for "Travel to Meetings" in year 1 will only be approved for proposals requesting a single year of funding.

** Non-Federal Matching (cost sharing) funds are raised from outside sources to increase the level of support provided by the Federal Government. This includes both cash and in-kind contributions.

*** Leveraged Funds are raised from outside sources to increase the level of support provided by the Federal Government (including cash and in-kind contributions) beyond the non-Federal matching requirements. USDA Forest Service salary and expense funds can be included as leveraged funds.
