

Forest Health Monitoring Program Monthly Update - Supplement September 20, 2011

JOB OPPORTUNITIES

The Minnesota Department of Natural Resources Division of Forestry is currently advertising a Forest Health Specialist position. This is a full-time permanent position located in St. Paul, MN. This position exists to manage the Forest Health Programs and the Urban and Community Forestry Programs in the Central Region and to lead the Hazard Tree Training programs statewide. The Natural Resource Regional Forestry Specialist will: collaborate with the State Forest Health Implementation Team to design, develop, and implement a comprehensive Minnesota Forest Health Program, which offers training, materials, and assistance to Department of Natural Resources staff; provide administrative and technical oversight of the Region Forest Health Program; develop and manage the Urban and Community Forestry Program; design, coordinate and implement forest health surveys and assessments; develop, analyze and interpret forest health information and management strategies to ensure management and the public is informed through public presentations, radio, television, news articles and scientific publications; develop and deliver educational/informational resources and publications to various audiences to integrate and implement ecosystem-based pest management practices and educate selective and proper use of pesticides; coordinate training activities with other divisions and agencies. Operational Support: monitor the work of Forestry Area Staff; develop and deliver educational programs/materials; train natural resource staff in the administration and implementation of forestry programs. Formal Training: Complete formal Division of Forestry classroom and field training sessions as assigned. Frequent travel is required to implement the Forest Health Program across the entire Central Region, and at times statewide. The closing date for this position is **September 28, 2011**.
