

Forest Health Monitoring Program Monthly Update - Supplement June 23, 2017

WHAT'S NEW

The California Firewood Task Force has developed a list of [Best Management Practices](#) (BMPs) for campground managers related to firewood management for forest health. The BMPs are specific to California ecology but may provide a useful template for other regions interested in developing similar BMPs for recreation facilities. The BMPs have been distributed to campground managers throughout the state, including State, County, private, and Federal campgrounds. For a sample letter to Campground Managers, feel free to contact Kayanna Warren (U.S. Forest Service, Region 5) at klwarren@fs.fed.us.
