

BCIP Proposals Recommended for Funding – FY 2013

Principal Investigator	FY 2013	Co-op Number/Date	Affiliation	Project Title
Dick Casagrande	\$92,068	New Co-op Agreement 5/1/2013-4/31/2016	University of Rhode Island, Department of Plant Sciences and Entomology	Rearing and Release of Swallow-wort Biocontrol Agents.
Sharlene Sing	\$27,025	ISA 5/1/2013-4/31/2014	Rocky Mountain Research Station/Montana State University Department of Land Resources and Environmental Sciences	Initiating a new yellow toadflax (<i>Linaria vulgaris</i>) biocontrol program with the stem galling weevil <i>Rhinusa pilosa</i> .
Paul Ode	\$39,542	New Co-op Agreement 5/1/2013-4/31/2015	Colorado State University, Department of Bioagricultural Sciences	Russian Knapweed Biocontrol: Propagation, Establishment and Monitor- ing of <i>Jaapiella ivannikovi</i> , the Russian Knapweed Gall Midge
Roy VanDriesche	\$48,835	New Co-op Agreement 5/1/2013-4/31/2018	University of Massachusetts, Department of Entomology and Environmental Conservation	Genetic Markers for Post-release Monitoring of Knotweed Psyllid, Evaluation of Knotweed/Tree Seedling Competition, and Other Activities Supporting Biological Control of Japanese Knotweed
Fritzi Grevstad	\$44,767	New Co-op Agreement 5/1/2013-4/31/2015	Oregon State University, Department of Botany and Plant Pathology	Incorporating Photoperiod in the Prediction of Biocontrol Agent Phenology and Voltinism
Susan Meyer	\$21,763	ISA 5/1/2013-4/31/2014	Rocky Mountain Research Station/ Brigham Young University, Department of Plant Sciences	Buffelgrass Biocontrol in the Sonoran Desert with Foliar Fungal Pathogens and Their Phytotoxic Metabolites
